## **ROBLOX FREE ROBUX**

Create a Roblox game

The main method to win free Robux is to create a Roblox game for others to play. Creating a game is hard work, but the Roblox development tools are very easy to learn and it is an interesting skill to work on. Game and software development is a growing field, so why not start by creating Roblox games first? Once you release a game, you can monetize it by selling game currency, cosmetic items, starter packs and game passes.

All purchases made by players will go through the Roblox Marketplace services and place Robux directly into your account. This is the most difficult and time-consuming method to create Robux, but if you create a great game, you will have a regular income of free Robux flowing into your account every month.

For more information on monetizing Roblox games, visit the Roblox Education Site.

Selling clothes

If you don't want to spend time on game development, you can also sell clothes on the

Roblox Marketplace. Designing shirts and other clothing is much, much easier than creating an entire Roblox game, but the market is incredibly competitive. Your designs will have to stand out from the competition and your items will have to be fairly priced.

However, if you commit to designing clothes, you can end up creating a whole fashion empire within Roblox that will align your portfolio with Robux. If your clothing designs become popular, you will amass an audience that will look forward to your next clothing delivery. Just like a game, if you make good clothes, customers will come. Just like creating a game, you will have to put a lot of time and effort into creating Robux this way. Tons of people make clothes at Roblox, but not everyone's clothes are bought.

For more information on selling clothes at Roblox, visit the official Roblox support site.
