Onnetsu therapy for various cancer

Kazuko Tatsumura

Gaia Holistic Health, USA

Onnetsu means comfortable heat. Dr Kazuko Onnetsu Therapy invented by Dr. Kazuko Tatsumura Hillyer emits from a special ceramic; 1) precise 8-10 micron of vibration of infrared SunRay, 2) vibration of Terahertz and 3) various degrees of heat. When Onnetsuki is slid over the skin, healthy areas are comfortable, but if deep tissue which is cold unhealthy or degenerated “hot spot” is detected by the temperature sensation reported by the patient. Dr Kazuko Onnetsu Therapy is both a diagnostic and therapeutic. When this hot spot is effectively treated with far-infrared, terahertz and heat, Dr Kazuko Onnetsu Therapy, the hot sensation subsides, and the disease conditions improve. Dr Kazuko’s protocol must be followed. Dr Kazuko Onnetsu Therapy is based on four historical and scientific facts: 1. NASA's finding regarding far-infrared vibration from sun light is 8-10 micron only. Also, added is the specific Terahertz vibration: Healing vibration; 2. Traditional Japanese Concept of the significance of Body Temperature; Raising Cold Temperature; 3. Immunology Theory by Dr Toru Abo, balancing autonomic nervous system to improve condition of white cells; Raising Immunity; 4. Promoting four flows of energy through acupuncture technique: blood, body fluid, Oxygen, Ki (Chi). Dr Kazuko has taught her Onnetsu Therapy to MDs and health practitioners over the past decades all over the world have been practicing it in the hospitals and clinics. Clinical Trials have shown improvements on cases (including but not limited to) as arthritis, asthma, various cancers, diabetes, tuberculosis and various painful conditions. Clinical studies from Cuba and Peru will be presented.
