### Quantum technologies and epigenetics: The foundation for a new approach to prevention, healing, and anti-aging

Epigenetics studies have revolutionized the field of genetics and developmental biology. The behavior of a person's genes doesn't just depend on the genes' DNA sequence-it is affected by so-called "epigenetic" factors such as nutrition, environment, and lifestyle. It has been proven that changes in these factors can play a critical role in disease. While epigenetic changes are required for normal development and health, they can also be responsible for some disease states. The concern is to ensure that the epigenetic influences

do not disturb or interfere in the action of the genes. By detecting the perturbations or stress affecting the bio-terrain and by reestablishing the homeostasis and vitality of the body, the SCIO/EDUCTOR Quantum Technologies and Therapies are the best protection of the epigenetic healthy mechanisms. The SCIO/EDUCTOR based on Quantum Physics, Biofeedback and Bio-resonance makes it possible to query the body for its most acute and chronic imbalances and to correct these stressors with focused energetic therapies. Over 500 assisted-by-computer Biofeedback therapies are available. The main premises of SCIO/EDUCTOR Bio-resonance and Biofeedback therapies are: (a) The energetic body is the matrix of the physical body. Heal energetic blockages and the biochemistry of the body will change. (b) The body is electrical in nature, therefore reactivity to stressors in the body can be

measured electrically. Health can be measured! (c) The body is innately intelligent and it has the ability to heal itself if the right conditions or stimuli (frequencies) are provided. (d) Electromagnetic frequencies (micro-currents) can be used to re-establish the electrical and biochemical functions of the body to restore the integrity of the tissue and promote healing. Frequency therapies as used in SCIO/EDUCTOR technologies are holistic, personalized, efficient, safe, painless, drug-free, without side-effects, in harmony with the environment and scientifically based. They are, unquestionably, an alternative to the over-medicalization which prevails today in our health systems all over the world. The SCIO/EDUCTOR works on the energetic level-it is biophysics, rather than biochemistry. It is Quantum Energy Medicine!
