## Prenatal experiments based on ancient indian vedas (Garbha Sanskar) for genius progeny

**Sreenadh karayatt**  
Vastu Spandan, India

Give birth to a healthy, virtuous, genius and beautiful baby is a dream of every mother. But unfortunately the cases of children with mutilated, mentally retarded, and heart disease are experienced. Such special cases are found in human beings only where the birth to a child is given through caesarean. That means now a day's caesarean is common in the eye of every one. If this practice is continued, the Common/normal Delivery will exist as a Phenomenon that we have to see in theory lessons.

The present study has been undertaken to solve the following research questions using Prenatal Experiments based on Ancient Indian Vedas ( Garbha Sanskar):

- How to get Common delivery Easily and without Pain?
- How to give birth to a Child with physically and Mentally Healthy?
- How mind Conditions, Thoughts, and Food intake of a pregnant women affects a newborn baby?
- How to manage the pregnancy period without problems?

### Biography
