

3rd International Conference on

Holistic Medicine and Nursing Practice

July 25-26, 2018 | Vancouver, Canada

Margaret Rogers Van Coops

Doctor of Clinical Hypnotherapy and Integrated Medicine, USA

Cellular-neuro-muscular-memory: The brain & The aura

Biography

Margaret Rogers Van Coops has received two PhD's for her studies, work, training/teaching and research into the Paranormal, and Religious Studies both as an Ordained Minister and Missionary, and later receiving her first PhD for her studies in Medical and Clinical Hypnotherapy and Behavioural Sciences. Her second PhD Doctor of Integrated Medicine was given for her own British early studies in nursing, psychology, and psychiatry which led to her own research into her six Crystal Therapies, later to be known as Power Stone Therapy. She accepted her Professorship in Alternative Medicine & Therapies in 2016, having originally refused it in 2004. She has been accredited by The California University for Foreign Students FCE in 2004. Her work with mental and emotional diseases has been profound. General physical ailments/illnesses have had extraordinary positive results, often achieving cures, much greater than ever hoped for. She has been a noted speaker traveling around the world for over 40 years. She has been a pioneer in her field, providing talks/classes/workshops at major expos, conferences and special events in many countries and is a published author of twelve books. She has also appeared on countless radio and TV shows, as well as her own TV shows *Psychic Chit Chat*, *Journey into the Oneness*.
