

Medicinal Aromatherapy

Jamuna Neelamegan

Dr. Jamuna's Natural Therapy Center, India

Medicinal Aromatherapy utilizes therapeutic grade essential oils to treat physical, emotional, and mental disorders. Essential oils are the pure natural elements derived from plant life. Essential oils can be used to bring the body into balance so that it can heal more quickly - often without the side effects of pharmaceuticals. While essential oils are effective on their own, they can also work in collaboration with conventional medicine.

With the guidance of a certified Medicinal Aromatherapist, you can use essential oils to help build your immune system, think more clearly, breathe more deeply, improve digestion, heart and general health ailments. Essential oils can be used to treat specific conditions while improving your mood and calming your mind.

Some Benefits Of Medicinal Aromatherapy:

- helps relieve pain from chronic illnesses
- dries up cold sores and shingles sores fast
- heals wounds, burns and bruises quickly
- relieves PMS and menopausal symptoms
- relieves pain from endometriosis
- soothes muscle aches and pains
- clears yeast infections, ringworm and athlete's foot
- assists digestive disorders
- eases depression and anxiety
- calms nerves and promotes sleep
- reduces headache/ migraine pain
