## Linda Paradis

Linda Paradis Group, France

### Tattoo Remoov 88 by LINDA PARADIS

**T**attoo Remoov 88 by LINDA PARADIS technique is no invasive thanks to the Round Square cartridge 88, which are not penetrating the dermis, and binding with the ink and bringing it up and out of the skin. No need any numbing, no crust and no pain, completely safe and efficient to remove PMU as well as body tattoos. The Tattoo Remoov serum whose composition is mainly food and cosmetic industry and pH degree is 9.5, reaching the dermis without perforation, acts on the different cell layers of the epidermis by causing an isotonic phenomenon of the cells that are shrinking and thus creating a way for that Tattoo Remoov reaches the dermis without perforation of the skin.
