Malignance Cell Grade Regression in Patient with Prostate Cancer Caused by Imbalances of Yin and Yang Energy**Huang Wei Ling***Medical Acupuncture and Pain Management Clinic*

Introduction: Prostate cancer is the major cause of malignancy and the sixth cause of death in men. The purpose of this study is to demonstrate that patient with prostate cancer can regress his malignancy cell when use ancient medical tools such as Chinese dietary counseling, auricular acupuncture with apex ear bloodletting, systemic acupuncture, moxibustion and replenishing all his internal massive organs using highly diluted medications according to the theory created by myself entitled Constitutional homeopathy of the Five elements based on traditional Chinese medicine and crystal-based medications.

Methods: through one case report of a 56 years-old man with history of diagnosis of prostate cancer in October 29th 2021 and according to Gleason system, the degree of malignance was grade 4+4 of Gleason (high grade cancer).

Results: On December 8th 2021, new biopsy was done (after about 12 acupuncture sessions) and the grade of Gleason reduced to 4+3 (medium grade cancer). The patient was submitted to surgery after these results and we do not have more time to evaluate the possibility of regression totally only using this kind of therapy, as I showed in another patient with malignant cancer in thyroid.

Conclusion: the conclusion of this study is to demonstrate that high grade cancer can transform to medium grade cancer when the patient is submitted to energy-based treatment with intention to balance the Yin and Yang energy using Chinese dietary counseling, auricular acupuncture with apex ear bloodletting, systemic acupuncture, moxibustion and the use of homeopathy medications according to the theory Constitutional Homeopathy of the Five Elements Based on Traditional Chinese Medicine.
