Evelyn found that in life if we have love and money, life will be like a Paradise every day. For instance, if we have a work (job/ business) that we love, be with the people that we love, and have enough money to live, she believes life will be fantastic and awesome. As we do not know when our last day in the life, will be, we should just live in the moment, and enjoy being here now, at this moment. Let's enjoy life together and do everything in Love
