

Brief Interview with Dr. Moore Lynne R (Editor)

Journal of Biometrics & Biostatistics

1. How many years have you been associated with the current research?

4 years.

2. What is the research topic you are working on now?

Developing quality indicators to evaluate acute health care.

3. What are attributes for a quality article?

Strong, original objectives and presentation of background, results and interpretation in line with those objectives.

4. Do you have any research funding (NIH or other national funding) now?

Yes.

5. When did you become an editor of OMICS Journal?

Three years ago.

6. What is your greatest career accomplishment?

Integration of quality indicators developed in my research program to evaluate health care in Canada.

7. How does the published scientific content assist the potential researchers?

Identifying gaps in knowledge where research is needed, methodological standards and developments, presentation style.

8. What is the purpose of serving as an editor?

Assuring that presented research is pertinent and methodologically sound and guiding authors.

9. Do you have any patents?

No.

10. Have you contributed any editorials or papers (any types) to OMICS Journals in the past two years?

No.

11. Do you plan to contribute any editorials or papers to OMICS Journals in the next year?

Maybe.

12. How would you define your experience with OMICS Group?

I would like to contribute more but lack time!.

13. Your opinion on conducting Editorial Board meetings at related Conferences?

Great idea.

14. Would you recommend OMICS to your friends or colleagues?

Yes but most of my close colleagues are in the field of trauma research.

15. How do you differentiate Journal of Biometrics & Biostatistics with other journals in the field?

Open access.
