

2020 Announcement of International Summit on Industrial Engineering May 11-12, 2020 Munich, Germany

Elsayed Elnashar

Professor of Textiles & Apparel, Faculty of Specific Education, Kaferelsheikh University, Egypt, E-mail: smartex@kfs.edu.eg

"International Summit on Industrial Engineering 2020" during **May 11-12, 2020** at **Munich, Germany**, under the theme: "Exchange of technological advances in the field of industrial engineering", which has prompts keynotes, oral talks, poster presentations and exhibitions. [Industrial Engineering](#) Conferences aims to bring together the prominent researchers academic scientists, and research scholars to exchange and share their experiences on all aspects of Industrial Engineering 2020. Industrial Conferences is a unique opportunity to discuss best practices within the laboratory research and those in other related fields of Industrial Engineering 2020.

Industrial Engineering 2020 offer sessions include big data analytics, decision analysis & methods, engineering economy & cost analysis, healthcare systems & management, ergonomics & innovation, information processing & engineering, operations research & supply chain management, production planning & control, project management, quality control & construction management, reliability & maintenance engineering, systems modelling & simulation, mechatronics, robotics & telecommunication, advanced robotics technologies & flexible automation, industry management & quality engineering, manufacturing models, planning & scheduling, materials characterization, industrial engineering & systems management, safety, security & risk management, facilities planning & management, computer aided design & manufacturing, advanced bio manufacturing, and laser processing technologies.

[Industrial engineering](#) will lead together experts, researchers, scholars, and students from all areas of mechanical engineering this includes industrial engineering, design engineering, production engineering, vehicle engineering, manufacture engineering,

mechatronics. Avail the opportunity to haunt the presentations addressed by eminent scientists, researchers, and experts from all over the globe. Participate in concourses on specific topics on which the conference is presumed to achieve progress. Acquire global networking in conveying and exchanging ideas. Share your enthusiasm in promoting new ideas, advancements, and innovations in the field of [Industrial engineering](#).

Industrial Engineering 2020 conferences understand you the market size and growth potential, major companies, draft business plans and pitch books; and conduct benchmarking and SWOT analysis. Industrial Engineers perform a range of services that typically fall under general or [industrialization](#).

Conference Series Industrial Engineering 2020 conferences embrace research scholars, academic professors, industrial chemists who endeavour to disseminate their research experience to escalate the forthcoming research ideas. **Conference Series LLC Ltd.** is an open resource platform that conducts 3000+ global events including international conferences, workshops, symposia, trade shows, exhibitions & science congresses in all the major scientific disciplines, including clinical, medical, pharmaceutical, engineering, technology, business management, and life sciences across America, Europe, The Middle East, and Asia Pacific.
