

2020 Awards for International Conference on Neurology December 10-11, 2020 | Dubai, UAE

Peter Silburn

The University of Queensland, Neurology, Australia, E-mail: p.silburn22@uq.edu.au

Neuroendocrinal immunology is the functional interactions between immune, neural, and endocrine cells and their possible relevance to physiological and certain pathological processes. These interactions occur at so many levels that it is necessary to establish some priorities and restrictions for the following dune cell products on behaviour, thermoregulation, and sleep, and endocrine diseases caused by the immune system. Hormones in the immune response have generally involved either the parenteral administration of hormones, antagonists and blockers and endocrine glands. Hormone administration can lead to depressed or stimulated immune responses, depending on the kind and dose of hormones and the timing of their administration. Females develop stronger immune responses, have higher immunoglobulin concentrations, and are more resistant to the induction of immunological tolerance than males. The incidence of certain autoimmune diseases is higher in female's Opioid peptides and Met-enkephalin. It appears that multidirectional communication networks exist within the body that permit the transmittal of signals between these various systems during times of stress, injury, disease, infection, metabolic alterations and complications of progressive aging and physical decline discussion.

Neurology Meet 2020 invites you to attend the [International meet of Neurology and Neurosurgery](#) and meet Physicians, Medical professionals, Nurses, Neurologists, Neurosurgeons, Neuro-Oncologists, Neuropathologists, Radiologists, scientists and scholar from all around the globe during December 10-11, 2020 in Dubai, UAE. It will be a remarkable opportunity to delegates and different scholars to interact with each other regarding the current research topics and share their expertise internationally.

Awards for Neurology Meet 2020

Expert Level:

The award to the experts who have made outstanding contributions to advancing in Neurology and Neurosurgery, It is the conference's most prestigious award and is known as the Achievement Award for Scientific Service The eligibility criteria for achieving this award is that one should have minimum of 20+ years of experience in the relative field in public or private sector. The receiver of this award should have a dedicated fascination and should take initiative in researching the recent trends and developments towards the related subjects. You may nominate online worthy of the prize.

Professional Level:

The Award for professional or academic research activity acquired in Neurology and Neurosurgery research field in the public or private sector for experts having research knowledge at 10+ years in the field of Neurology & Neuroscience and Genomics & Molecular Neurology with most relevant accomplishments. Part-

time research experience would be counted as pro-rata. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree has been earned or in the country where the researcher is recruited), even if the doctorate has never been completed or expected. You may nominate online worthy of the prize.

Scholar Level:

Our conference aims to provide the best platform for extending your network by sharing your on-stage research expertise. Presentation involves 25-30 minutes of oral debate on the conference theme-based scientific research topics along with 5-minute panel discussions. You may nominate online worthy of the prize.

Women Scientist:

Our Conference provides a unique platform for women scientists for presenting latest research projects with an in-depth analysis. We cordially invite women scholars and scientists from Universities/ Industries to who have 10+ years of research experience to join the forum. We are happy to encourage our women scientist's participants through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. Women Scientists may nominate online to merit the prize.

Best Speaker Award:

Out Standing Speaker Awards are presented to recognize individuals who have made implemented an idea or innovative approach to encourage active involvement for the betterment of the field as a whole. The award should motivate individuals to strive to realize their fullest potential which could in turn be beneficial. Epic works are not only a testament to the individual's efforts, but they also have the potential to change the whole world as they can lead to formulation of better policies and or a new mind set.

Best Key Note Speaker:

Keynote speeches are usually based on the speaker's perspective of future advancements and experiences. They can also include motivational and inspirational elements. But the most important factor for keynote message success is audience engagement, innovative ideas for the betterment of health conditions in society, someone who captures the essence of your meeting and can subsequently highlight it to your audience in a short amount of time, weaving the key message that you want the audience to take away with them, into their speech in a fun and memorable way.

improve long-term excellence in the field of Neurology and Neurosurgery. You may nominate online worthy of the prize. Online, you may nominate someone who deserves the prize.

WhatsApp No: +44-203-7690-972

Best Poster Presentation:

Poster presentations are a very important way of sharing significant research and deserve recognition. The poster gives a framework to visually summarize your work, to engage others in discussions, and an opening to entice others to learn more by reading the full paper. The student poster award will acknowledge work that best represents the purposes, goals, vision and adds new knowledge, contributes innovative research, and/or provides insightful contribution to the field by a bachelor's, master's or doctoral student.

Out Standing Thesis:

This award is recognizing for Masters/Ph.D./Post Doctorate thesis work Presentation who will present their projects and thesis that have been implemented to
