Neurology Meet 2020 welcomes attendees, presenters, and exhibitors from all over the world to Abu Dhabi. We are delighted to invite you all to attend and register for the “2nd International Conference on Neurology and Neurosurgery” which is going to be held during December 10-11, 2020 in Dubai, UAE.

The organizing committee is set up for a thrilling and exciting [conference](#) program including complete lectures, workshops on a variety of topics, symposia, poster presentations and various programs for participants from all over the world. We invite you to join us at the Neurology Meet 2019, where you will be sure to have a meaningful experience with scholars from around the world. All members of the Neurology Meet 2020 organizing committee look forward to meeting you in Dubai.

### Market Analysis for Neurology Meet 2020

#### Importance and Scope:

Geographically market is segmented into North America, Asia Pacific, Latin America, Europe and Center East and Africa. The global central nervous system (CNS) therapeutics market to grow at a CAGR of 5.9% and expected to reach USD 128.9 billion by 2025, which increases in malady ubiquity rates due to increase in the population, the introduction of new drugs, and increased outgo on healthcare. A large-scale of research is going on the top Universities and colleges on Neurology over the globe. Many companies are associated with different diagnostic instruments and other therapeutics. Other than this different societies and research labs are too [associated in this research field](#).

Increasing occurrence of malicious disorders including Meningitis and Brain Tumour disease together with other inherited CNS disorders has resulted in the increased necessity for new improvements in

neuroscience industry. The market is expected to experience growth over the forecast period on account of growing demand in laboratories and academic centres. The market players aim at introducing interesting innovations and unique technologies with the ability to obtain experiences to understand superior the compound nervous functionalities and neural manipulations. Besides, expanding aggregate geriatric population each year is expected to drive significantly the demand owing to a growing need for better treatment and pharmaceutical.

Neurology Meet 2020 conferences aim to provide expert insight into recent advances in key areas of Neurology and a balanced perspective on how these may influence guidelines and patient management. The vision behind this world congress is to serve as a unique global platform for Neurologist, neurosurgeon, and researchers from world-renowned institutions to share and exchange new clinical studies and advancements in dealing with a brain and spine tumour.

Neurology Meet 2020 events have a wide scope globally in guiding Neurology students, Neuro-oncologists, scientists, research scholars, medical practitioners, leading medical industries to champion professional and social relationship with sister organizations and actively concur within the analysis and safe utilization of the medicine with honour and ethics. These major scientific events come up totally analyzed to proffer the best prospect for the academicians in terms of collaborations to undertake the International workshops to present their research, and trade professionals in terms of exhibiting their products & services and B2B networking. The scientific conferences include oral and poster presentations, seminars, and workshops from the professionals working within the field of medicine.

## Why to Attend?

Across the world the researches on Neurology and Neurosurgery & its advances are leading with a large number of respective doctors, researchers and scientists from various hospitals, universities, labs, and communities engaging in the field. It will be a great opportunity for you to reach the largest assemblage of committee members and participants from the respective field. Neurology Meet 2019 will conduct the presentation, distribution information; allow networking with leading researchers and scientists, make a splash with new drug developments, and receive name recognition at this event. ICNN provides two days of robust discussion with the world-renowned speakers, the most recent techniques, developments, and strategies related to diagnosis, prevention, and management of Neurology and Neurosurgery as well as analyse new ideas and concepts on a global scale. The aim of the Conference is to provide a platform to academicians and practitioners from multiple disciplines to debate and deliberate on social change that is encompassed by innovation and technology.

Neurology Meet Embraces the changes driven by science and technology; Provides details on market size forecasts incorporating scientific and technological developments in medical, clinical, pharma, engineering, science, technology and business fields; Identifies market growth drivers providing insights; Informs product trends, market size, scientific research details, and global perspectives demography wise; Collects data on recognized experts, target audience, universities, societies, associations, organizations, industries, companies, and funding institutions; Enables clients to take advantage of emerging opportunities

## Conference Highlights:

- Neurosurgery
- Neurological disorders: Research and Treatments
- Spine and Spinal Disorders
- Brain Stroke
- Brain Tumour and Gliomas
- Paediatric Neurology

- Pediatric Neurosurgery
  - Neuro-Oncology
  - Neurological Rehabilitation
  - Neuroimaging and Radiology
  - Advances in Neuroradiology and Neuroimaging
  - Neuropsychiatry and Neuropsychology
  - Cognition and Behaviour neurology
  - Neuro Chemistry and Neuro Toxicology
  - Neuroimmunology
  - Neuro Pharmacology
  - Neurophysiology and Neuropathology
  - Central and Peripheral Nervous system
  - Brain Mapping & Biomarkers
  - Clinical Neurology and Pediatric Nursing Care
  - Neuro-therapeutics & Case Studies
  - Anomalies and related neurosurgical issues
1. Abstracts shall be submitted through the link (Submit abstract)
  2. Shall offer experience of mental illness, neurology & neurosurgery and shall be of beneficial to others on mental health illness or the people that care for & support them
  3. Abstract submissions for all presentation types should be within 250-300 words and Biography of the presenter shall be included of 60-70 words.
  4. Proper name and affiliation (University/Organization) along with Country name of the presenter.

All presenters of accepted abstracts will be required to register and pay for attendance at the Conference.

The acceptance of an abstract for the mental health conference does not imply provision of travel, registration or accommodation for the conference.

For more details please refer to: Speaker Guidelines & FAQs

Email confirmation of the submitted abstract will be sent upon successful acceptance of the abstract.

If the abstract is accepted, you will be required to confirm the presenter/s and pay the applicable registration fee/s.
