

2020 Young Scientist Awards (YRF) for StemcellCongress2020 Warm Greetings from Conferenceseries!!

Claudio Dario Dufour

Medical Director, University of Buenos Aires, Argentina, E-mail: Claudiodufour@yahoo.com.ar

Conference Series Llc Ltd with years of milestones organizing 3000+ International conferences throughout the sphere, now stepping forward towards 14th World Congress on Stem cell Research, Cell and Gene Therapy that is scheduled in Barcelona, Spain in the month of September 10-11, 2020.

Now we are glad to announce the 2020 Young Scientist Award for the Young Research Forum. Theme of the conference is "Stem Cell Research: Great avenues for healthcare and wellness entrepreneurs" integrates prompt key presentations, Poster presentations and Exhibitions.

The goal of the YRF is to encourage and bring collectively young scientists in the area of Stem cell, Gene therapy and Regenerative Medicine. The discussion provides an exciting spot for debating potential and unending research in any phase, from concept to results. The conference endeavors to provide a responsive atmosphere to allow young investigators to get opinion on their effort, swap knowledge, ask queries, explore corridors accessible to them. Furthermore, the discussion promotes interaction amongst young pollsters, experienced scientists and commerce. Every single writer, besides to commentators appropriate to their work, will be designated a commercial counsellor who will also evaluate and suggest advancements to their proposals.

The Young Researchers Forum (YRF) applauds initial investigators the prospect to convene and talk about research themes and styles, to share and expand perceptions, learn from each other and increase awareness from prominent scientists.

Number of Awards: The quantity of honors to be made in a year will be constrained to 25.

How to Apply and Last date of submitting the nominations:

- Deserving prospects can submit their nominations online by visiting the Website.
- Initially they must submit the abstract.
- It will be sent to the review committee for acceptance.
- Accepted nominees should register and confirm their participation
- Last date for Initial application January 30 – \$399
- Last date for Initial application February 28 – \$499
- Last date for Initial application March 30 – \$599

Selection Committee for the Award

All the judicious submissions, based on the subject segment of the work, will be evaluated by the respective sectional boards of the organization. Our panel incorporate organizing committee members & editorial members of International journals.

editorial members of International journals.

Announcement of the Awards:

The names of the budding Researchers selected for the award by the Selection Committee shall be proclaimed at the StemcellCongress2020 Meeting in the month of September during the event.

Spain is red carpeting this event in September during 10th & 11th. The symposium starts at 9:00 AM with initiation, keynote talk and other enlightening talks on various sessions, tapping all the departments and with specialists from all over the sphere. Amongst refreshment and networking and ends at 6:00 PM. It is a two-day forum with a blend of disparate advanced and conventional topics.

Our supporters include organizing committee members, editorial members of International journals, its associated journals, media partners, collaborators from various Internal Organizations and our past participants include doctors, scientist, nurses, researchers, young research forum (YRF) and students.

Conference Highlights, Assessment Criteria and Benefits:

We graciously invite Youthful Scholars from Academies/Organizations/Corporations to deliver a swift oral lecture during the seminar. These lectures should be of 10 minutes-15 minutes interval in concurrent scientific tracks mentioned below, monitored by 5 minutes question time. Hence, hosts are reassured to give thorough and dynamic discussions. Submissions will be carefully chosen based on earlier exploration productivity and potential assurance.

Stem Cells & Revival, Stem Cell Embryology, Stem Cell Apoptosis & Signal Transduction, Stem Cell Therapy, Stem Cell Transplantation, Cell Signaling in Development, Stem cell and Regenerative Therapy, Stem Cell-Based Product Development & Commercialization, Tissue Engineering, Diseases and Stem Cell Treatment, Innovative Stem Cell Know-hows, Computational Biology in Reprogramming Stem Cells, Translational Research in Stem Cell Assessments, Tumor Cell Science, Stem Cell Banking, Cellular Flexibility & Reformed, Epigenetics, Cell and Gene Therapy, Stem Cell Biomarkers, Cell & Organ Regeneration, Advances in Stem Cells and their Niches, Drugs and Clinical Developments, Stem Cells and Veterinary Applications, Plant & Cell Physiology, Cell Differentiation & Disease Modelling.

Planning and Submission Directions:

All documents must adapt, at time of submission, to the SCC2020 formatting strategies, make use of the A4 page design, and be submitted electronically over the Online Submission Site according to the provided template.

- Journal of Tissue Science & Engineering
- Journal of Stem cell biology and transplantation

- Journal of Genetics and Genomes

Assessment Criteria:

- Approach, freshness and generalization of the work
- Significance of the findings on Stemcell, Gene Therapy and Regenerative Medicine
- Appropriate producing and/or investigational techniques for Stemcell, Gene Therapy and Regenerative Medicine

Advantages of joining us:

- You can platform your exploration through oral demonstrations.
- Take Up the career expansion and the latest research implements and technologies in your field.
- Improve a starting point for alliance among young scholars.
- The symposium will offer a potential for collegial edge with other young academics and established chief researchers throughout the sphere.
- Reason for young inventors to be educated about the research areas of their generations to increase their power as multidisciplinary investigators.
- Vigorously dispense information and inspire the benefits of schooling and career issues.
- This conference will give applicable and timely understanding to those who conduct research and those who pertain and gain from research.
- Play-act together and share notions with both associates and therapists.

Proposals for nominations can also be sent to Catherine Jacob through mail or WhatsApp.

Journal of Genetics & Genomes

Claudio Dario Dufour, J Genet Genom 2019, 3:3

The goal spectators of this conference are Stem Cell Designers and Agents, Gene Therapy Academics, Genetic Experts, Regenerative Medicine Scholars, Cell biologists, Academic Specialists, Anatomical Investigators, Oncologists, Neurology specialists, Immunologists,

Ophthalmology experts, Pharmaceutical Engineering mavens, Business Tycoons, Drug Industrial Corporations.

Let's have a debate on these up-to-date revises in Spain!

All the Very Best!!!
