

Advanced Materials Congress 2020 Conference Announcement

Lan Wang

Associate Professor of Physics, RMIT University, Melbourne VIC 3001 Australia, E-mail: lan.wang@rmit.edu.au

The “[25th International Conference on Advanced Materials](#)” was scheduled during October 21-22, 2019 at Singapore, has been successfully completed. The conference was initiated with the honorable presence of the Keynote forum.

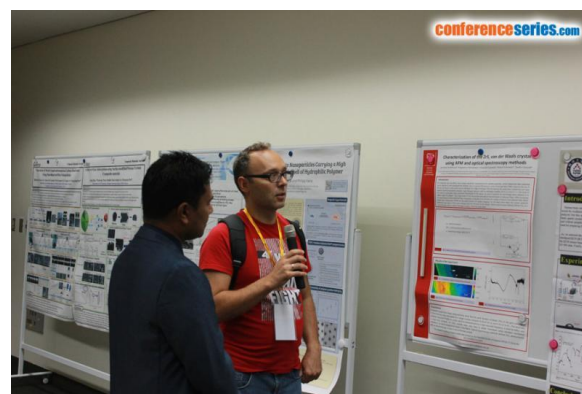

Advanced Materials congress 2020 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the field of Material science with namely **Lan Wang**, Associate Professor of Physics RMIT University, Australia

[Conference Series](#) is glad to announce “**26th World Congress on Advanced Materials**” which is scheduled to be held during October 22-23, 2020 at Tokyo, Japan and the event is enlightened with the theme “Current and Emerging Trends in the Field of Materials Research”.

[Advanced material congress 2020](#) conference will primarily emphasize on the various topics related to Electronic and Magnetic materials, [Advanced Materials and Research](#), Materials & Alloys, Science and Technology of Advanced Materials, etc. Advanced Materials 2020 congress boards at allocation novel concepts and innovative technologies amongst the professionals,

industrialists and students from research areas of Advanced Materials to share their recent innovations and applications and indulge in collaborative discussions and technical sessions at the event. The Session will also have a cluster for companies and/or institutions to present their services, products, innovations and research results.

The conference encompasses keynote forum, oral and poster presentations, young research forum and exhibitions. The aim is to gather prominent academic scientists, researchers, specialists, industrialists and research scholars to discuss and share their know-hows and research works on all aspects of [R&D and innovation](#), design and development, High value-add services and products together through skills and [Advanced Materials and Research](#).
