

# Advancements in Cancer Clinical Trials

**Mari Uyeda**

*AC Camargo Cancer Center, Sao Paulo, Brazil*

It's a privilege to share that the Journal of Cancer Clinical Trials (JCCT) has completed 4 years in the year of 2020 and is still expanding its base. From the year of 2016- 2019, a total number of 60 articles were received and almost half of them were rejected in the preliminary screening because of plagiarism or incorrect format. Thus, the remaining was subjected to peer review process and were published well, within the time and the print issues were also published and dispatched online within the 30 days of publish of the issue.

The Journal of Cancer Clinical Trials is an elucidative and effectual open access journal. The journal deal with cancer research oriented studies and publishes original reviews, research papers, short reports and letter to the editors .The major topics that the Journal focuses on are the clinical trials related to cancer of breast, liver, ovary, lungs, blood, bladder, prostate, skin, colon, cervical, kidney and bones, glioblastoma, cancer clinical trials and ethical issues, etc. There is an important conference going to be held on the topic "Women's Health and Breast Cancer" in New York and "Cancer Meet 2020" is going to take place in San Fransico, USA.

The Journal plays an important role in the digital advertising of the articles, research papers, etc. to help the authors increase the number of viewers effectively. It also tries its level best to maintain the ethics and publish the work with utmost quality. Through various social networking sites like Face book, Twitter, Linked In, it shares the latest information related to the Journal. The postings are also accompanied with high resolution images to give the readers a better

understanding. We draw the special attention to important aspects of the article and keep updating our viewers about the articles from time to time. We also provide new research avenues that are related to the journal.

According to the Google Analytics Metrics report, we feel pleased to share that the Journal is establishing a profound impact on the viewers worldwide. It is creating an interest for the authors to visit our journal, submit their research papers and boosts up their research oriented studies. It gives the academicians, students, researchers, medical professionals, industries associated with clinical trials and diagnosis etc. free access to the journal. It values the contribution of the author and helps in generating excellent profile sites for them.

Here, I would take a moment to share that with the addition of new members in the editorial board, with the dedication put up by each one of them; the Journal is improving and reaching out to the maximum of its viewers providing a broader dimension of the latest research ideas. It also invites editors from all over the country to work with the journal and share their expertiseand insights. I would also like to acknowledge the authors, editors, reviewers, Editorial board and the Office bearers for their preservance and unrelenting support in making this journal a successful one. Keep reading our journals and check for the guidelines given in our official portal for the submission of your manuscripts.
