Retraction Note:

The article entitled “Assessment of Genotoxicity and Histopathological Changes Induced by Polyethylene Glycol (PEG6000) in Male Mice,” has been accepted for publication in the **Journal of Cytology & Histology** considering the statements provided in the article as personal opinion of the author which was found not having any conflict or biasness towards anything. As the article was a perspective one, information provided by the author was considered as an opinion to be expressed through publication.

Soon after the publication of the paper, we witnessed some serious concerns regarding the paper content and figures.

Figure 3: (A) in page 3 in this manuscript “Assessment of Genotoxicity and Histopathological Changes Induced by Polyethylene Glycol (PEG6000) in Male Mice” was reproduced in its entirety from Figure 4 in page 5 from the following study of “I Muhammad Said Shabbar, A Maslat. Genotoxicity of Ecballium elaterium (L) A Rich Cucurbitaceae Fruit Juice Using Micronucleus Assay and DNA Single Strand Break Techniques. The Internet Journal of Health, (2006), Volume 6 Number 2, 1-12.”

Publisher took decision to make the article online solely based on the reviewers suggestion which considered the article not but a personal opinion of the author. However, it is found that the article has some unavoidable mistakes and issues, therefore, being retracted from the journal.
