Awards

Expert Level

The award to the experts who have made outstanding contributions to advancing in Recycling and Waste Management. It is the most prestigious award of the whole conference and is tagged as scientific service Achievement award. The eligibility criteria for achieving this award is that one should have minimum of 20+ years of experience in the relative field in public or private sector. The receiver of this award should have a dedicated fascination and should take initiative in researching the recent trends and developments towards the related subjects. You can nominate deserving of the award through online.

Professional Level

The Award for professional or academic research activity acquired in Environmental Sciences research field in the public or private sector for experts having research knowledge at 10+ years in the field of Environmental Sciences with most relevant accomplishments. Part-time research experience would be counted as pro-rata. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree was obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged. You can nominate deserving of the award through online.

Scholar Level

The conference offers Scholar Level Award for the upcoming scientists, researchers and experts having 10+ years research experience in the field of Recycling and Waste Management. 10th International Conference on Recycling and Management would like to provide best platform to expand your network by sharing your research knowledge at stage. Presentation includes 25-30 minutes of oral talk on the scientific research topics based on the theme of the conference along with 5 minutes panel discussions. You can nominate deserving of the award through online.

Women Scientist

10th International Conference on Recycling and Waste Management provides a unique platform for women scientists for presenting latest research projects with an in-depth analysis. We cordially invite women scholars and scientists from Universities/ Industries to who have 10+ years of research experience to join the forum. We are happy to encourage our women scientist's participants through research awards and provide assistance for women scholars in career development and research guidance through our collaborations. Women Scientist can nominate deserving of the award through online.

Outstanding Speaker

This award is recognizing for individual who will present their projects, strategies, and schemes that have been implemented to improve long-term excellence in Recycling 2020. You can nominate deserving of the award through online.

Best Poster Presentation

Student Poster Competition is organized at 10th International Conference on Recycling and Waste Management, to encourage students and recent graduates to present their original research. All accepted abstracts will be presented at the poster sessions during the conference. Conference aims at setting a platform for all the budding scientists and researchers to present their real-time work and share their views and aspects related to the theme of the conference Exploring New Perceptions and Sustainable Technologies for Recycling and Waste Management. You can nominate someone deserving of the award through online.

Importance of Award:

1. The award attracts readers and authors who will be more likely to consider a company or author's work over another if it has won an award.
2. Being nominated or shortlisted can be helpful because it places you at the forefront of your genre and Work.
3. Awards can make you and your titles more visible. They can attract new customers, investors and authors by giving an organisation an edge over its competitors.
4. Awards do not only acknowledge success; they recognise many other qualities: ability, struggle, effort and, above all, excellence.
