

# Challenges for Oncology during the COVID-19

Salah Aref

Mansoura University, Egypt

[Cancers](#) are a group of diseases within which abnormal cells uncontrollably develop and unfold within the body. More than 100 types of cancer have an effect on humans. Globally, it is the second leading cause of death, accounting for one in every seven deaths worldwide. From the past two centuries, though, scientists have worked hard to understand how cancer forms, how it can be prevented, and how to treat it. Nowadays, with several types of cancer, the diagnosis for those who have early treatment is positive, with 14 million cancer survivors living in the United States alone. Cancer Conferences of the Conference Series LLC Ltd., serve as a platform to bring together all the researchers working in the field to develop an area of scientific study that will continue to expand into the future.

[Cancer Congress 2020](#) is a World's leading Scientific virtual event which brings all the well distinguished academics together in the field of professionals, Academic scientists, Professors to exchange their ideas about research state and technologies. Most of the oncologists, Critical Care Specialists, Researchers and Scientists will take part in this online event. Papers will be presented in the form of Webinars, Video Presentations and e-posters. The abstracts were carefully selected by the Review Committee by focusing on the theme [Challenges for Oncology during the COVID-19](#)

The Virtual event helps in providing the ideal forum to stimulate establish collaborations & ideas. The attendees can build up the knowledge through exclusive sessions and discussions on latest innovations and treatment strategies in Cancer & Oncology:

- e-poster presentations by Young Researchers
- Webinar presentations by Prominent Professors, Doctors
- Open Innovation Challenges
- Lectures from renowned speakers
- Novel techniques to benefit your research
- Global Networking sessions with 50+ Countries

Cancer Congress 2020, each one of the individuals to give their valuable presence on June 22-23, 2020 which melds brief Webinars, Video Presentations and e-posters.
