After the successful completion of 10th World Congress on Green chemistry and Technology during July 10-11, 2019 in Paris, France. We feel honoured to welcome you to “Green Chemistry webinar 2020”. The webinar is scheduled to happen on May 25-26, 2020. This Green Chemistry Webinar 2020 will give you an exemplary experience and enormous ideas in the research field

The participants who are expected to attend the conference are Eminent Scientific Professionals in Environment and Chemistry, Faculty (Professors, Associate Professors, Asst.Professors), Chemistry and Environment offering Colleges, Training and research Institutes, Chemistry Associations and Societies, Environmental Business Entrepreneurs, Manufacturing Medical Devices Companies, Students, PhD Scholars, Graduates and Post Graduates, Directors, CEO's of Companies and organizations. Association, Association presidents and professionals, Bio instruments Professionals, Research Institutes and members, CRO and DATA management Companies, Data Management Companies

In the previous Conference “10th World Congress on Green chemistry”, we had sessions on various interesting sessions/tracks. Some of them were Green Energy & Renewable Resources Green Engineering and Sustainable Designing, Green Technologies in

food production & food Processing, Green Polymers, Green Manufacturing, Green Materials etc. The Organizing Committee worked really hard to make the event great. Two of the most eminent Organizing Committee Members were Dr. Alain L Fymat who is the President/CEO and Professor in International Institute of Medicine and Science, USA and Dr. Yavuz Silay who is the Chairman of the Board, Turkey

After this Successful Event, We are heading towards the Green Chemistry Webinar 2020 and will hope better no. and quality of presentations and Speeches.

Our organizing committee members would like to invite all the potential chemistry and environment people to participate in the Green Chemistry Webinar 2020 to develop and enhance the field of Green chemistry and technology.

Make your footprint in the [Green Chemistry Webinar 2020](#) to explore the Research and Advanced techniques in Green chemistry and technology
