[ASIA BIO 2020](#) welcomes attendees, presenters, and exhibitors from all over the world. We are delighted to invite you all to attend and register for the "[2nd International Conference on Bio-Pharmaceuticals](#)" which is going to be held during December 02-03, 2020 Auckland, Newzeland. The Organizing Committee is gearing up for an thrilling and informative conference program with plenary talks, symposia, workshops on a variety of topics, poster presentations and many programs for members from all over the world. We invite you to join us at the Asia Bio 2020, where you will be sure to have a meaningful experience with scholars from around the world. All the members of Asia Bio 2020 Organizing Committee will look forward to meet you at Auckland, Newzeland.

This market is facing a significant improvement owing to patent expiration of branded drugs and increasing number of new drug expansions. This has attracted several local and international pharmacovigilance service providers. Presence of modest environment has run to improved clinical data management, pharmacovigilance and streamlined R&D process.

The global pharmacovigilance (PV) and drug safety package market is anticipated to succeed in US\$ 262.02 Mn in 2027 from US\$ 151.07 Mn in 2018. The pharmacovigilance (PV) and drug safety package market is calculable to grow with a CAGR of 6.4% from 2019-2027. The global biopharmaceuticals market accounted for \$186,470 million in 2017, and is projected to reach \$526,008 million by 2025, registering a CAGR of 13.8% from 2018 to 2025. Biopharmaceuticals are substances that are produced using living organisms, such as microorganisms and animal cells, and have a high-therapeutic value. These large and complex molecular drugs are also known as biologics and biotech drugs. The global biopharmaceuticals market is driven by various factors, such as increase in elderly population, surge in prevalence of chronic diseases such as cancer and diabetes, and increase in adoption of biopharmaceuticals globally. Furthermore, rise in

strategic collaborations among biopharmaceuticals companies is also anticipated to supplement the growth of the biopharmaceuticals industry.

Importance & Scope

ASIA BIO 2020 welcomes attendees, presenters, and exhibitors from all over the world to Shanghai, China. We are delighted to invite you all to attend and register for the "Global Pharmacovigilance & Clinical trials" which is going to be held during December 02-03, 2020 Auckland, Newzeland. The Organizing Committee is gearing up for an thrilling and informative conference program with plenary talks, symposia, workshops on a variety of topics, poster presentations and many programs for members from all over the world. We invite you to join us at the ASIA BIO 2020, where you will be sure to have a meaningful experience with scholars from around the world. All the members of ASIA BIO 2020 Organizing Committee will look forward to meet you at Auckland, Newzeland. This market is facing a significant improvement owing to patent expiration of branded drugs and increasing number of new drug expansions. This has attracted several local and international pharmacovigilance service providers. Presence of modest environment has run to improved clinical data management, pharmacovigilance and streamlined R&D process. The global pharmacovigilance (PV) and drug safety package market is anticipated to succeed in US\$ 262.02 Mn in 2027 from US\$ 151.07 Mn in 2018. The pharmacovigilance (PV) and drug safety package market is calculable to grow with a CAGR of 6.4% from 2019-2027. The global biopharmaceuticals market is segmented based on type, application, and region. On the basis of type, the market is divided into monoclonal antibody, interferon, insulin, growth and coagulation factor, erythropoietin, vaccine, hormone, and others. By application, it is categorized into oncology, blood disorder, metabolic disease, infectious disease, cardiovascular disease, neurological disease, immunology, and others.

Target Audience

- Directors, CEO's of Organizations
- Business Development Managers
- Chief Scientific Officers
- R&D Researchers from Pharma Industries
- Professors, Associate Professors, Assistant Professors
- PhD Scholars Patent Attorneys
- Investment Analysts
- Association, Association presidents and professionals
- Noble laureates in Health Care and Medicine
- Bio instruments Professionals
- Bio-informatics Professionals
- Software development companies
- Research Institutes and members
- Supply Chain companies
- Manufacturing Companies
- CRO and DATA management Companies
- Training Institutes
- Business Entrepreneurs
