

Diabetes Meeting scheduled on September 23-24, 2020 at Rome, Italy

Royce P Vincent

King's College Hospital NHS Foundation Trust, UK, E-mail: royce.vincent@nhs.uk

Diabetes is a complex, chronic illness requiring continuous medical care with multifactorial risk-reduction strategies beyond glycemic control. Ongoing patient self-management education and support are critical to preventing acute complications and reducing the risk of long-term complications. Significant evidence exists that supports a range of interventions to improve diabetes outcomes.

Diabetes Meeting 2019 witnessed an amalgamation of peerless speakers who enlightened the crowd with their knowledge and confabulated on various new-fangled topics related to the field of diabetes and endocrinology with namely **Royce P Vincent**, King's College Hospital NHS Foundation Trust, UK.

With the successful completion of Diabetes Meeting 2019 we are glad to announce our upcoming "31st International Congress on Prevention of Diabetes and Complications" is going to be held during September 23-24, 2020 Rome, Italy highlighting the latest and exciting innovations in Diabetes Disease& Treatment. **Diabetes Meeting 2020 Conference** invites all Academic Scientists, Leading Endocrinologists, Surgeons, Oncologists, Radiation Therapists, General Physicians, Dieticians, Primary Health care specialists, Internists, Pharmaceutical Industrial Delegates, talented young scientists, and student communities across the globe to attend **European Diabetes** conference under a single roof where networking and global partnering happens for the acceleration of future research.

Diabetes is one of the fastest growing health challenges of the 21st century, with the number of adults living with diabetes having more than tripled over the past 20 years. In 2000, the global estimate of adults living with diabetes was 151 million. By 2009 it had grown by 88% to 285 million. Today, we

calculate that 9.3% of adults aged 20–79 years – a staggering 463 million people – are living with diabetes. A further 1.1 million children and adolescents under the age of 20 live with type 1 diabetes. A decade ago, in 2010, the global projection for diabetes in 2025 was 438 million. With over five years still to go, that prediction has already been surpassed by 25 million will be 578 million adults with diabetes by 2030, and 700 million by 2045

Global Diabetes Conferences going to be held during January, 2020 to December, 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburg and More...!!!
