

Editor Note for Journal of Neurological Disorders

Kenneth M Heilman

Department of Neurology, University of Florida College of Medicine and GRECC-VAMC, Gainesville, USA

Editor Note

Dear Colleagues, we are delighted to announce that we are releasing regular articles in Volume 8, Issue 5 (2020) in our journal. Editor-in-Chief of Journal of Neurological Disorders: Athanasios K Petridis, Kenneth M Heilman and Hiroshi Nakanishi. Neurological Disorders ISSN (2329-6895) is a peer-reviewed and open access journal under Hilaris Publication. We kindly invite you to find out more about our journal at <https://www.hilarispublisher.com/neurological-disorders.html>.

For further details on the submission process, please see the instructions for authors at <https://www.hilarispublisher.com/neurological-disorders/instructionsforauthors.html>. You will submit your manuscript at- <https://www.scholarcentral.org/submissions/neurological-disorders.html>. If you wish further information please contact Journal Coordinator Hinata Akiyama at neurologicaldisorders@medicineinsights.com and neurologicaldisorders@neurologyinsight.com for any queries associated with Journal or article submission.

We look forward to hearing from you. We have tried to present an honest range of topics within the contributions chosen. We've arranged articles in approximate chronological order of subject. We are confident that this collection includes a number of the simplest, most stimulating and most readable of the articles. Our kindest regards, Professor Shin-ichi Muramatsu and Professor Charles B. Nemeroff Editorial Board Members.

The journal will be an open access online. The main areas of interest are going to be Acanthamoeba Pigmentary Disorders, Acute Ischemic Stroke, ADHD, Alzheimer, Alzheimer Disease, Brain Spinal Cord Injury. However, the scope of the journal isn't restricted to these major areas only. Peer experts from the aforesaid research area and willing to participate are cordially invited to affix us.

However, the journal "Journal of Neurological Disorders" has some features of being a legit and genuine journal:

Indexed in Index Copernicus, Open J Gate, Academic Keys, SafetyLit, China National Knowledge Infrastructure (CNKI), Electronic Journals Library, RefSeek, Hamdard University, EBSCO A-Z, SWB online catalog, Virtual Library of Biology (vifabio), Publons, Geneva Foundation for Medical Education and Research

They are transparent about the publication charge

And on behalf of the publisher HILARIS one has got to say:

- We make sure that the peer-review process is fair, unbiased (single

blind review system-where reviewer recognizes author but author does'nt recognize reviewer) and timely

- They are transparent about the publication charge
- Timely issue release and reviewer comments are shared with authors, so full transparency
- All papers have an assigned DOI

They are pretty open about their indexing and citation, including all the discontinued information

So, it is a mixed picture all at once. I tend to mention that this publisher is trying to induce their act together and made already some considerable steps to enhance. Your mentioning of a number of the editors is I feel another comforting point since this info is pretty complete and accessible (which you hardly see in real predatory journals). Perhaps you will be able to mail them to induce more answers to resolve the confusion.

- You will be among the editorial team members as an expert in your field who will decide the acceptance or rejection of the research submitted.
- As an editorial/reviewer team member, you'll be exposed to the scientific society. Thus, increases your chances of collaborating with researchers round the world.
- All the active members who need funding could enjoy the discount on publication within the journal.

We sincerely hope you may accept our invitation to be an element of this journal you'll be able to submit your research work or can contribute as being Editorial Board Member and a reviewer. We would like to see you in our team. So, we request you to share your email address with us and that we will retreat to you soon.

We maintain the scope and quality of your journal while offering authors of rejected papers the choice to publish in an exceedingly more suitable journal. Once a proof has been corrected and finalized, an article is ready for Online First publication and can be published online. This suggests that readers can access peer reviewed articles well before print publication. These articles are searchable on the journal homepage they will be cited using their unique DOI (Digital Object Identifier). The formatting depends on the reference style of the journal.

Registered Address: Hilaris SRL, Chaussee de la Hulpe 181, Box 21, 1170 Watermael-Boitsfort, Brussels, Belgium. It has an impact factor of 3.1* for 2019.
