## Abstract

The Journal of Integrative Oncology is a leading research journal dedicated to promote inspiring research outcome to the biological community. This leading-edge, open access journal encompasses diverse fields such as: Clinical and Healthcare Research, Immunology, Stem Cell Research, Genetics, and Medicine in addition to integrative oncology related topics associated with the cancer research. The Journal compiles the latest oncology associated research thereby provides its readers an edge over the others.

The editorial board of the Journal of Integrative Oncology is comprised of acclaimed scientists from the world over. The Journal of Integrative Oncology is edited by the experts in the field; all the articles are subject to thorough peer review process. The published content therefore stands out in terms of originality and quality. In addition to Research Articles, the Journal also publishes high quality Commentaries, Reviews, and Perspectives from pioneers in the field, aimed at highlighting new theories and treatment regimens in order to provoke debate amongst the scholars.

The team at the Journal of Integrative Oncology takes immense pride in providing its authors a streamlined publishing process. The Journal therefore takes optimal time for processing a manuscript and ensures enhanced visibility and improved author citations. The accepted articles are published online immediately, enhancing the author visibility and citation.

Integrative Oncology is a peer reviewed journals, serving the International Scientific Community. This journal offers an open access platform to the authors to publish their research outcome on different therapeutic methods used to treat and cure cancer. Oncology journal thus helps in improving the citations for authors and attaining a good impact factor.
