

## Editorial Highlights for International Journal of Sensor Networks and Data Communications

Kenneth Stokes

Editorial manager, International Journal of Sensor Networks  
and Data Communications

Ph.No: +325 328 0176

I am pleased to introduce [International Journal of Sensor Networks and Data Communications](#) a rapid peer reviewed Journal which have a key concerns over the health economics related to the most useful sensor networks. Identifies measures and compares the costs and outcomes of pharmaceutical products and services. I am pleased to announce that, all issues of volume 9 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019.

International Journal of Sensor Networks and Data Communications mainly focuses on Network architectures, Network protocols, Communication network, Network services and applications, Network security and privacy, Ambient intelligence, Robotics, Discrete algorithms and discrete modeling, Sensor tasking and control, Video surveillance, Environmental monitoring, Traffic monitoring, Medical device monitoring, Air traffic control etc., though not limited to. The journal converses about the recent advancements in electronics and wireless communication enabling the development of low cost sensor networks.

The journal is using [Editorial Tracking for submissions](#) and quality peer review process. It accepts original research articles, reviews, abstracts, addendums, announcements, commentaries, book reviews, rapid communications, letters to the editor, annual meeting abstracts, conference proceedings, case-reports, corrections, discussions, meeting-reports, news, obituaries, orations, product reviews, hypotheses and analyses

During the calendar year of 2019, PE received a total of above 30 manuscript, out of which 26 articles (86%) were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 8 articles were subjected for publication after they are accepted in the peer review process. In the 1 issues of Volume 9 published during the year 2019, a total of 6 articles were published (at an average of 3 articles per issue) of which, articles were published from authors all around the world. Globally articles have been accessed by the research scientists and also cited.

During the calendar year 2019, a total of two Editors, seven Reviewers joined the board of PE and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will beneficial to publish quality of article in the Journal.

I take this opportunity to acknowledge the contribution during the final editing of articles published and the support rendered by the editorial assistant, in bringing out issues of PE in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of PE, the office bearers for their support in bringing out yet another volume of PE and look forward to their unrelenting support to bring out the Volume 9 of PE in scheduled time.
