

Editorial Highlights for the Journal of Tissue Science and Engineering

Sowmya Uttam

Department of Pharmacy, Jawaharlal Nehru Technological University, Telangana, India

Editorial Note

I am pleased to introduce Journal of Tissue Science and Engineering a rapid peer reviewed Journal which have a key concerns of physical, chemical, and biological factors to replace and/or improve biological functions of the cell. The Journal covers a broad range of applications in cell biology that explains seeding, culturing and stimuli, novel drug design and delivery, nanomedicine and technology, non-invasive surgical approaches, stem cell therapy, gene therapy, regenerative medicine, and stem cell transplantation techniques.

The journal includes a wide range of fields in its discipline to create a platform for the authors to make their contribution towards the journal and the editorial office promises a peer review process for the submitted manuscripts for the quality of publishing.

I am pleased to announce that, all issues of volume 9 and 10 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2019 and 2018.

JTSE impact factor for the year 2018 was 3.11*; 4.3*. Google analytics for this particular journal it is increasing week by week. The online reader database also plays a major role in providing the scope for this journal.

The Journals aims to flourish and to maintain the standards in research and practice, provide platform and opportunity to present evidence based medicine and analytical assessment of research and probably it is much in deed for students, teachers and health care professionals to enhance the patient care.

Google analytics for this particular journal it is increasing week by week. The online reader database also plays a major role in providing the scope for

this journal, where number of professionals, researchers, scholars are showing interest towards our journal.

During the calendar year of 2019 and 2018, JTSE received a total of 15 manuscripts, out of which 25 articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 and 2018 around 9 articles were subjected for publication after they are accepted in the peer review process. In the issues of both volumes published during the year 2019, a total of 11 articles were published of which, articles were published from authors all around the world. Globally articles have been accessed by the research scientists and also cited.

During the calendar year 2019 and 2018, a total of three Editors, seven Reviewers joined the board of MCCR and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will beneficial to publish quality of article in the Journal.

I take this opportunity to acknowledge the contribution of (PAUL LEE) during the final editing of articles published and the support rendered by the editorial assistant, in bringing out issues of JTSE in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JTSE, the office bearers for their support in bringing out yet another volume of MCCR and look forward to their unrelenting support to bring out the Volume 11 of JTSE in scheduled time.
