

### **Editorial Note for Electrical and Electronic Systems**

I am pleased to introduce Journal of Electrical and Electronic Systems (JEES), Open Access publishing model with a view to provide quick and easy access to the research across the globe. Scholarly open access journal aims to publish most complete and reliable source of information on the discoveries and current developments in the mode of Research articles, Review articles, Case reports, Short communications, etc. The journal publishes high quality manuscripts from basic, fundamental, applied research developments in electricity, electronics and electromagnetism. The journal deals with electrical circuits that involve active electrical components such as vacuum tubes, transistors, diodes and integrated circuits, and associated passive interconnection technologies publishes original papers which are of significant reference value in the arena of electrical and electronic systems. The journal publishes original research papers, review papers, short communications, technical notes, case reports, book reviews, and conference reports.

I am pleased to announce that, all issues of volume 9 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online during the year of 2020.

The journal offers a constructive platform to discuss all the emerging areas of wireless communication systems, biosensors & actuators, quantum computers, biomedical electronics, robotics, mobile communication, embedded system, non-linear microscopy, ultrafast spectroscopy, microelectronics, nano-electronics, computational electromagnetics, power electronics and electric drives, network theory, protection devices, and electrical machines.

During the calendar year of 2019, JOM received a total of 40 manuscript, out of which 30% articles were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 12 articles were subjected for publication after they are accepted in the peer review process. In the 2 issues of Volume 3 published during the year 2019, a total of 20 articles were published (at an average of 7 articles per issue) of which, articles were published from authors all around the world. Globally articles have been accessed by the research scientists and also cited.

During the calendar year 2019, a total of two Editors, seven Reviewers joined the board of JLOP and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will beneficial to publish quality of article in the Journal.

I take this opportunity to acknowledge the contribution of our reviewers for their exceptional support during the open access process and the managing editor during the final editing of articles published and the support, in bringing out issues of JOM in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of JLOP, the office bearers for their support in bringing out yet another volume and look forward to their unrelenting support to bring out the Volume 7 of JLOP in scheduled time.
