

# Editorial Note for Journal of Material Sciences & Engineering

**Riny Yolandha Parapat**

*Institute Itenas Bandung-TU, Berlin, Germany*

Journal of Material Sciences & Engineering (2169-0022) is an open access bi-monthly journal publishing peer-reviewed articles in all major and minor specializations of Material Sciences & Engineering. Journal is running successfully since 2012. It is our pleasure to announce that journal has released 8 volumes by the end of 2019 with quality of articles and is successfully running its 9th Volume.

All published articles of this journal are included in the indexing an abstracting coverage of Index Copernicus, Google Scholar, CAS Source Index (CASSI), Open J Gate, Open J Gate, RefSeek, Hamdard University, EBSCO A-Z, SIS, SJIF, ISRA, etc. Studies receiving funding from a funding organization that is included on the list of PMC and Research Funder Policies or authors having NIH grant were submitted to PubMed.

The journal encourages researchers, professors, academicians, doctors, faculties, and students from all over the world to submit their findings or new results related to the journal. All articles will be published and archived through single blind peer-review process. Readers can access or download the published articles free of cost. Journal is following peerreview and publication under open access creative commons attribution license.

During the year 2019, the Journal has released nearly 40 articles (at an average of 8 articles per issue) of which, articles were published from authors all around the world including original research, review and Sor Communication in the volume 8 focusing on critical topics related to Material Sciences & Engineering.

During Jan, Hilaris SRL has acquired this journal from Omics group and from then on all rights has been taken by the Hilaris SRL only. Association with Hilria SRL has increased Readership Metrics (By Google Analytics) of Journal of Material Sciences & Engineering which can be accessed at Google Analytics Metrics for the Journal of Material Sciences & Engineering. We would like to take this opportunity to thank you for the exertion and skill that you add to reviewing, without which it is difficult to keep up the high standards of peer-reviewed journals.

Some of the articles released in 2019 are as follows:

1. Electrochemical Study of the Hydrogenation of LaZr<sub>2</sub>Cr<sub>4</sub>Ni<sub>5</sub>- Based Alloys
2. Statistical Process Control Applied in the Chemical and Food Industry
3. Study on Recycling of Galvanic Sludge containing Copper for Pure Copper Production
4. Theoretical Study of the Effect of a Fe Interlayer on the Formation of Graphene on a Diamond (111) Surface

The journal has released the conference details relating to the journal in December 2019. In the same way, the Journal

expects to cover all the above classification topics for the year 2020 along with the present research in this field along with the current situation prevailing in globally i.e., COVID19.

## Social Media/Digital Marketing

The journal always was in contact with the scientific group of the world through its mails, social media networks and its digital platforms. Some of the best ways to be in contact with the audiences are:

1. Twitter postings: Regularly posting the articles, trends, updates of the journal. They can be visible at: @MaterialSciencJ.
2. Posting Google Analytics data on the website.
3. Using LinkedIn and Facebook for regular updates.
4. Regularly being in contact not only through mails but also through Whats App.

The complete details about the journal can be seen at: <https://www.scholarscentral.org/submissions/materialscienceseengineering.html> and for contacting us, mail us or Whats App us. Lastly, Journal of Material Sciences & Engineering is nothing without the continuous support of the Editorial Board Members especially our Editor-inChief Dr Mohammad Azam Ali. The Editorial Board members are the backbone of the journal. Along with them, authors and reviewers play a very significant role in building this journal.

So, as an Editorial Co-ordinator I invite all the extended dignitaries in this field to submit their articles for bringing this research/expertise to the global scientific community.
