

Editorial note on Journal of Microbiology and Pathology

Yongho Bae

Assistant Professor University at Buffalo, USA.

The Journal of Microbiology and Pathology, Hilaris publication, is an international prominent journal focusing on studies microbial genetics, cell biology, cell physiology, virology, pathogenic microbiology, systematic pathology, immunology, clinical pathology, haematology, medical microbiology, molecular pathology, pathogenesis and pathophysiology, immunohistochemistry, histopathology, PCR techniques, bio-systems engineering, industrial microbiology, aquatic ecosystems/marine microbiology, molecular biology, plant microbiology and pathology, soil microbiology, environmental microbiology, veterinary microbiology, etc. It is an open access and peer reviewed journal by eminent Editorial Board and the manuscripts are peer-reviewed by potential reviewers according to their research interest.

For the last 4 years, published papers have been under the strong and able leadership of our Editor-in-Chief's Dr. Yongho Bae. Especially, we are thankful to for his continuous support and dedication towards the journal will not lost. We the publication office of Microbiology and Pathology including me, we all are very honoured and grateful for his selfless devotion towards the journal.

We provide a rapid turn-around time possible for peer reviewing and publishing the article online and to disseminate the articles freely for research, teaching and reference purposes.

Journal of Microbiology and Pathology furnishes the latest scientific findings and observations pertaining to microbes, their sub-cellular structural and functional constitution and ecological interactions with particular focus on the pathogenic strains causing disease in plants, animals, and humans.

The Journal of Microbiology and Pathology regularly publishes is of immense relevance for medical, clinical and biomedical applications and the professionals working in the field of agriculture, hospitals, academics, biosafety regulation, biological & biomedical research institutions, clinical and diagnostic practitioners, food and pharmacological industries. This peer-reviewed journal considers original research as research articles, reviews, commentaries, case studies, short note communications, clinical trials, case reports, epidemiological surveys, and expert opinions for prospective publication

Applied Strategies in 2019

We have applied many strategies in 2019, i.e.

- Using contacting through Mobile (Whatsapp) phones
- Sent Call for papers for the eminent in the field
- Approaching the Editors suggested eminent
- Approaching potential reviewers for the Call for papers
- Maintaining the frequency of articles.

Conclusion

I wish to provide some perspective from the cycling research community of Journal of Microbiology and Pathology Safety with regard to a recent Editorial note of our Journal.

I solely believe that the quality of the journal is based on the Eminence presence in the Editorial Board as well as Reviewer Board (potential reviewers) who strive to make the papers significantly productive and helpful for the scientific community.

Stay Safe & Healthy...!

Thank you!

With kind regards,
John David,
Associate Managing Editor,
Journal of Microbiology and Pathology
