

# Editorial Note on Laparoscopic and Laser

N V G Jayanthi\*

*Laparoscopic Gastro-Intestinal & Bariatric Surgeon and Therapeutic Endoscopist, Broomfield Hospital, Chelmsford, UK*

## Editorial Note

I am pleased to declare a rapid peer-reviewed journal, Journal of Laparoscopic and Laser, which provides researchers and scientists with an opportunity to explore and publish the basic, advanced and latest scientific advances in the field of Laparoscopic and Laser. The Journal of Laparoscopic and Laser accepts articles on Laparoscopy is an operation performed in the abdomen or pelvis using small incisions with the aid of a camera. The laparoscope aids diagnosis or therapeutic interventions with a few small cuts in the abdomen. and Laser surgery is a type of surgery that uses a laser to cut tissue. Examples include the use of a laser scalpel in otherwise conventional surgery, and soft-tissue laser surgery, in which the laser beam vaporizes soft tissue with high water content. Laser surgery is commonly used on the eye. The Journals tend to prosper and publish the most complete Source of discovery and accurate details on the findings and in all areas of the field, recent advances in the mode of original papers, analysis, articles, case reports, short communications, etc. make them freely accessible online without any limitations or any other subscriptions to researchers worldwide.

The journal is indexed in EBSCO Academic, IndexCopernicus, CrossRef, Open J Gate, RefSeek, Hamdard University, EBSCO A-Z. All published articles are permanently archived and available at HILARIS website in HTML and PDF formats. All published articles are assigned to Digital Object Identifier (DOI) - CrossRef. As an original publication, review papers, case reports, brief correspondence, etc the Journal of Laparoscopic and Laser gathers data from reputable sources of knowledge on observations and current developments. It consists of data on new technologies and the use of various hospitals.

Authors can submit manuscripts and monitor their progress, hopefully for publication, through the online tracking system. As any report to be published publicly cumulatively covers 45 days from the date of receive. The time period for different processes including quality control, peer review, and paper preparation is taken from 4 to 5 weeks. Performance reviews and peer review processes are completed within 14 days, and the deadline for submission is just 7 days after the reviewers and editors have accepted.

During the calendar year 2020, a total of fifteen Editors, five Reviewers joined the board of JIDP and contributed their valuable services towards contribution as well as publication of articles, and their valuable reviewer comments will beneficial to publish quality of article in the Journal of Laparoscopic and Laser.

I would like to acknowledge the participation of all writers, reviewers and other supportive groups in the final editing of the published articles and the editorial assistant's assistance in the timely resolution of JIDP issues. I am very grateful to them for inspiring me to understand the efforts and growth of other groups that make to publish articles a successfully..
