

# Editor's Note on Journal of Hypertension: Open Access

Joseph I Shapiro\*

Dean, Joan C Edwards School of Medicine, Professor of Medicine, Marshall University, USA

## Editorial

I am delighted to introduce Journal of Hypertension: Open Access (JHOA) of Hilaris Publishing Group, one of the renowned journal in the area of clinical & medical sciences. Journal of Hypertension: Open Access is an open access publication that features scientific works of all fields of hypertension including; Blood Pressure, Hypertension Causes, Hypertension Treatment, Hypertensive Emergency, Hypertensive Heart Disease, Hypertensive Retinopathy, Malignant Hypertension, Primary Hypertension, Pulmonary Hypertension, Resistant Hypertension, Secondary Hypertension, and Systolic Hypertension.

The Journal is a Quarterly journal has completed 9 years started from 2011 accept original research articles, review articles, perspectives, case report, short communication, editorials etc. In the year of 2019 it has completed with 8th volume and in 2020 9th volume is going on. During 2019 total 13 number of articles has been published in 4 issues from which few are from developed countries and few from developing countries and few conference abstracts.

The objective of JHOA is to publish up-to-date, high-quality and original research papers alongside relevant and insightful reviews. As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging. Each issue of the journal will contain Research Papers, will be more traditional in form and will demonstrate a sound theoretical and methodological underpinning and a clear contribution to knowledge in the field of Hypertension. All types of papers, however, will be subject to the journal's single-blind peer review process. Needless to say, any papers that author wish to submit, either individually or collaboratively,

are much appreciated and will make a substantial contribution to the early development and success of the journal.

The journal appears in many indexing sites such as; Copernicus, CAS Source Index (CASSI), Open J-Gate, Genamics JournalSeek, RefSeek, EBSCO A-Z, Publons, Sherpa Romeo, Hamdard University, OCLC-WorldCat, Geneva Foundation for Medical Education and Research, etc. It provides Membership for the journal along with reprints of the article as per authors demand. Handling social media platforms helps in journal growth. Journal uses Twitter and LinkedIn and connect with Researchers, Scientists, and Doctors worldwide to promote the published articles, new trends and news regarding hypertension and cardiology along with journals to increase the page views and to get manuscripts for publication purpose.

I take this opportunity to acknowledge the contribution of Joseph I Shapiro during the editing of articles published and the support rendered by the Managing Editor, in bringing out issues of JHOA in time.

I would also like to thank and express my gratitude to all the authors, reviewers, readers, the publisher, the advisory and the editorial board members of JHOA, for their trust & endless support in bringing out another volume of "Journal of Hypertension: Open Access" and looking forward for their continuous support during journal growth in upcoming days.
