

Electro Chemistry Congress scheduled on May 25-26, 2020 at Rome, Italy

Dr. Alireza Heidari

General Dentist, Ilderton Dove Dental, London, Canada Area, E-mail: jsande24@uwo.ca

Chemistry is the branch of Science that is involved in the study of composition, properties and reactivity of matter. Chemistry is called the central science because it is involved in every other science as a foundation for example it is part of botany as plant chemistry; it is part of ecology as the formation of ozone. Catalysis is a part of chemistry that deals with catalysts which accelerate the chemical reaction without being consumed and the catalyst can be recovered at the end chemically unchanged. The term catalysis was first employed by the Swedish chemist Jons Jacob Berzelius in 1835. The application of catalysts to industrial processes was undertaken in the 19th century. The catalyst will provide an alternate route in which the chemical reaction can be undergone with an accelerated rate, whereas without the catalyst reactants will lack activation energy for the chemical reaction to occur.

CALL FOR NOMINATIONS

Expert Level (Scientific Service Achievement Award)

The Achievement award is designed to recognize **sustained, exceptional performance and/or significant contributions of the individuals** who have made splendid contributions in Euro Biosimilars. Scientific Service Achievement Award is one of the most distinguished awards in the conference. The applicants should have minimum of **20+ years** of experience in the relative field including performance or project goals above and beyond normal performance expectations in public or private sector. The applicants are expected to have a highly committed passion and should take lead in researching the current trends and developments towards the related subjects. The applicants can be nominated through online.

Professional Level (The Research Contribution Award)

The Research Contribution Award aims to recognized renowned professional for their excellence in research in the area of Electrochemistry to the advancement of knowledge in their own fields with significant impact on public or private sector. The applicants should have 10+ years in area of Immunology with their outstanding achievements. Part-time research experience would be counted as pro-rata. It is calculated starting from the date when you obtained the (first) degree entitling you to embark on a doctorate (either in the country in which the degree was obtained or in the country in which the researcher is recruited), even if a doctorate was never started or envisaged. The applicants can be nominated through online.

Electro Chemistry Congress 2020 supported by the organizing committee network of renowned scientific and professional expert such as Mackenzie Honikel Arizona State University, USA; Stefano Carli Italian Institute of Technology, Italy; Ulrike Langklotz TU Dresden, Germany, Italy; Bernhard Schuster University of Natural Resources and Life Sciences, Austria; Atiweena Krittayavathananon University of Oxford, UK; Atiweena Krittayavathananon University of Oxford, it provided a platform for collaboration among colleagues, vendors and academia to Mackenzie Honikel Arizona State University, USA; Stefano Carli Italian Institute of Technology, Italy; Ulrike Langklotz TU Dresden, Germany, Italy; Bernhard Schuster University of Natural Resources and Life Sciences, Austria; Atiweena Krittayavathananon University of Oxford, UK; Atiweena Krittayavathananon University of Oxford reveal new innovations, solutions, ideas, and emerging technologies in Chemistry.

The GDP is projected to rise by 2.5 percent in 2019, 1.9 percent in 2020 and 1.8 percent in 2021. The chemical industry will be source of strength, with growth of 2.5 percent in 2019 and 3.0 percent in 2020. In fact, chemical industry growth will exceed that of the US economy through 2024.

~~Electro Chemistry Conferences going to be held during~~
January, 2020 to December, 2020 at various cities in
Europe (London, Barcelona, Madrid, Valencia, Rome,
Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin,
Edinburgh.... And Many More..!!!
