

Exploring the Innovations and Excellence in the Field of Artificial Intelligence and Big Data

Hung Nguyen

Applied Artificial Intelligence Institute, Deakin University, Australia, E-mail: hung@deakin.edu.au

Electrical and Mechanical Engineering is one of the top fields to fame for Engineering and Technology gatherings to benefit CNE Credits. In spite of gigantic advances in Electrical and Mechanical Engineering, Big Data and IoT developments we are happy to announce our AI & Big Data 2020, 3rd International Conference on Artificial Intelligence, Machine Learning and Big Data during August 17-18, 2020, in Copenhagen, Denmark.

Engineering meetings and Conferences assume a major job in method of Electrical, Mechanical Engineering and Technology that are one in all the essential scenes for Academicians, Scientists, Researchers, Students, Scholars, Researchers, Industrial and Business specialists to show and acquire criticism on inquire regarding, patterns, enhancements, grouping and innovation before production, to manufacture joint efforts, and to network and share examine thoughts.

AI & Big Data 2020 cowl a large scope of themes known with artistic Mechanical, Electrical and massive information applications whereas concentrating on IoT. AI & Big Data 2020 offers important dreams into forefront applications from worldwide specialists, new businesses and therefore the champs of Europe's important advancement rivalries for large information applications.

Awards Announcement:

The meeting offers developing researcher grants to remarkable specialists, uncommon alumni or early academicians who have particular enthrallment towards the gathering topics. The Award endeavors in giving a solid expert improvement open door for early vocation academicians-meeting specialists in the field, connecting with partners from different pieces of the world, and making systems and long haul relations.

1. Expert Level:

The eligibility criteria for achieving this award is that one ought to have minimum of 20+ years of expertise within the Artificial Intelligence, Machine Learning field.

2. Professional Level:

The eligibility criteria for achieving this award is that one ought to have minimum of 10+ years of expertise within the Artificial intelligence & Big Data.

3. Scholar Level:

Award for the upcoming researchers, scientists and specialists.

4. Women Scientist:

Award to energize our women research members through research grants.

5. Outstanding Speaker:

This respect sees for individual who will show their endeavors, techniques, and plans that have been completed to improve long stretch significance in Artificial Intelligence, Machine Learning & Big Data.

6. Best Keynote Speaker:

This respect sees for best Keynote speaker who will display their activities, techniques, and plans that have been executed to improve long haul greatness in Artificial Intelligence & Big Data.

7. Best Poster Presentation:

Best Poster Competition is organized at Conference, to encourage students and recent graduates to present their original analysis.

8. Outstanding Masters/Ph.D./Post Doctorate thesis work:

This honor is perceiving for Masters/Ph.D./Post scholastic degree proposal work Presentation who can show their undertakings and postulation that are upheld to upgrade since a long time ago run greatness inside the field of Artificial Intelligence.

You can nominate Merit of the award through on-line.

Best Regards
