

## Exploring the Innovations and Excellence in the field of Graphene Technologies and Carbon Nanotubes

Alain L Fymat

Founding Chair, President/CEO and Professor, International Institute of Medicine & Science, USA, E-mail: [alain.fymat@fiimmas.org](mailto:alain.fymat@fiimmas.org)

Electrical and Mechanical Engineering is one of the top fields to fame for Engineering and Technology gatherings to benefit CNE Credits This International summit gathers professionals from all over the world, invariable of age to discuss the current-state-of-art in this blooming field of graphene, advanced 2D materials, and semiconductors. The 4<sup>th</sup> International Conference and Expo on Graphene, Advanced 2D Materials & Semiconductors holds a theme of "A New Way to Atomic Assembly" which also paves way for young researchers in acquiring knowledge and information by meeting the experts.

**Engineering meetings and Conferences assume a major job in method of Electrical, Mechanical Engineering and Technology that are one in all the essential scenes for Academicians, Scientists, Researchers, Students, Scholars, Researchers, Industrial and Business specialists to show and acquire criticism on inquire regarding, patterns, enhancements, grouping and innovation before production, to manufacture joint efforts, and to network and share examine thoughts.**

GRAPHENE 2020 cowl a large scope of themes known with artistic Mechanical, Electrical and massive information applications whereas concentrating on IoT. GRAPHENE 2020 offers important dreams into forefront applications from worldwide specialists, new businesses and therefore the champs of Europe's important advancement rivalries for large information applications.

### Awards Announcement:

The meeting offers developing researcher grants to remarkable specialists, uncommon alumni or early academicians who have particular enthrallment towards the gathering topics. The Award endeavours in giving a solid expert improvement open door for early vocation academicians—meeting specialists in the field, connecting with partners from different pieces of the world, and making systems and long haul relations.  
**Expert Level:** The eligibility criteria for achieving this

award is that one ought to have minimum of 20+ years of expertise within the GRAPHENE 2020

**Professional Level:** The eligibility criteria for achieving this award is that one ought to have minimum of 10+ years of expertise within the GRAPHENE 2020.

**Scholar Level:** Award for the upcoming researchers, scientists and specialists

**Women Scientist:** Award to energize our women research members through research grants

**Outstanding speaker:** This respect sees for individual who will show their endeavours, techniques, and plans that have been completed to improve long stretch significance in GRAPHENE 2020

### Best Keynote Speaker:

This respect sees for best Keynote speaker who will display their activities, techniques, and plans that have been executed to improve long haul greatness in GRAPHENE 2020.

**Best Poster Presentation:** Best Poster Competition is organized at Conference, to encourage students and recent graduates to present their original analysis.

**Outstanding Masters/Ph.D./Post Doctorate thesis work:** This honor is perceiving for Masters/Ph.D./Post scholastic degree proposal work Presentation who can show their undertakings and postulation that are upheld to upgrade since a long time ago run greatness inside the field of GRAPHENE 2020.

*You can nominate Merit of the award through on-line.*

### Best Regards

Ashley Osteen

Program Manager | ROBOTICS 2020
