

Extend your Knowledge in the Field of Plant Science

Yamini Tiwari

Assistant professor Dept of agriculture. VGU India, E-mail: yamini.tiwari@vgu.ac.in

The “4th International Conference on [Plant Science](#) & Physiology” hosted by conference series with the theme, was successfully executed during March 25-26, 2019 Sydney, Australia. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Plant Science and Bio Technology.

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

- Identification of candidate genes involved in Arabidopsis responses to abiotic and biotic stresses using a transcriptomic approach (Synan F Abu Qamar). United Arab Emirates University, UAE
- Do riparian species like nitrogen (Eugenija Kupcinskiene Habil) Vytauto Didziojo universitetas, Lithuania

Conference series is organizing “[Global Meet on Plant Genomics and Biotechnology](#)” The conference is going to cover the entire field related to Plant Science and Biotechnology , latest research and findings . The Conference will provide a platform where research scholars and students will be able to gain knowledge about

new, innovative research and findings from the eminent Scientist, Researchers and Professors.

The conference highlights of Plant science and Biotechnology 2020 are as follows:

Plant Genome Science | Agricultural Science | Plant Proteomics | [Plant Genetics](#) | Plant Science | Horticulture Sciences| Plant Physiology | Plant disease & Plant pathogens | Plant nutrition & Plant hormones | Plant Bio-technology | Plant Tissue Culture | Plant Pathology | Plant-Micro-Biology.
