

Global Cardiovascular Research and Clinical Cardiology

William J Rowe

Medical University of Ohio, USA, E-mail: rowefemsinspace@gmail.com

Submission guidelines and registration prices information for Speakers and Delegates are posted on the Heart Congress 2020 website at <https://cardiacresearch.conferenceseries.com>.

Online entries will be accepted from January 01, 2019-December 06, 2020.

Heart Congress 2020 will be held in Montreal, Canada from December 06-07, 2020.

[Heart Congress 2020](#) aims to provide a platform where academics and practitioners from cross-disciplinary fields from education, Research Areas, and Academics can come together and collaborate. The event will encourage the exploration of the potential synergies that may arise from pooling the different perspectives. We invite you to submit papers on Cardiology and Cardiovascular Diseases. Poster and oral presentations, and thesis presentations will be included in the Conference Program. Heart Congress and Heart Diseases cover all aspects of [Cardiology](#), Heart Failures, and Heart Diseases, Hypertension and Stroke, Interventional Cardiology, Molecular Cardiology and Cardiac Nursing, Pediatric Cardiology, and Cardiac Surgery. It also considers the interactions between humans and these systems.

*Are you willing to showcase research results and recent objectives achieved? During Future Dentistry 2020, all participants will be able to provide at the registration desk a poster outlining your main results. Why?

Because you will have the chance to present them at the Knowledge exchange session (April 27 forenoon) and meet the authors of the speech you find most interesting during the final Networking Session!

Venue:

- Montreal is the most populous municipality in the Canadian province of Quebec and the second-most populous municipality in Canada. Originally called Ville-Marie, or "City of Mary", it is named after Mount Royal, the triple-peaked hill in the heart of the city. The city is centered on the Island of Montreal, which

took its name from the same source as the city, and a few much smaller peripheral islands, the largest of which is Île Bizard. It has a distinct four-season continental climate with warm to hot summers and cold, snowy winters.

In 2016, the city had a population of 1,704,694, with a population of 1,942,044 in the urban agglomeration, including all the other municipalities on the Island of Montreal. The broader metropolitan area had a population of 4,098,927. French is the city's official language and is the language spoken at home by 49.8% of the population of the city, followed by English at 22.8% and 18.3% other languages (in the 2016 census, not including multi-language responses). In the larger Montreal Census Metropolitan Area, 65.8% of the population speaks French at home, compared to 15.3% who speak English. The agglomeration Montreal is one of the most bilingual cities in Quebec and Canada, with over 59% of the population able to speak both English and French. Montreal is the second largest primarily French-speaking city in the developed world, after Paris. It is situated 258 kilometers (160 mi) south-west of Quebec City.

Cardiology is a forte of inner medicinal managing issue of the heart is it human or creature. The field incorporates therapeutic analysis and treatment of intrinsic heart imperfections, heart disappointment, coronary vein infection, valvular coronary illness, and electrophysiology. Cardiology is concerned with the typical usefulness of the heart and the deviation from a sound heart. Numerous issues include the heart itself, yet some are outside of the heart

Cardiology Conference is a unique forum to bring together worldwide distinguished Academics in the field of cardiology, cardiovascular researchers, public health professionals, scientists, academic scientists, industry researchers, scholars to exchange about state-of-the-art research and technologies. Expert faculties will discuss the relevant advances in Cardio research and will explore the novel trends to reduce the effects of cardiovascular risk factors

Benefits:

- Meet Experts & Influencers Face to Face
- Networking Opportunities
- Learning in a New Space
- New Tips & Tactics
