Conference Series LLC LTD is organizing “Global Meet on Optoelectronics and Quantum Physics” which is going to be held in the month of November 02-03, 2020 at Sydney, Australia. The Theme of the conference is “An insight into the Recent Research and cutting-edge Technologies in optoelectronics and quantum physics”. The conference offers Prestigious Award for Young Research’s at OPTICS-CONF-2020- Gathering the New-born Advances in Quantum Physics.

OPTICS-CONF-2020 invites research scholars & young scientists, to submit the nominations for Young Scientist Awards: OPTICS-CONF-2020. This OPTICS-CONF-2020 Young Scientist Awards will be announced at the upcoming “Global Meet on Optoelectronics and Quantum Physics” at Sydney, Australia on November 02-03, 2020

This OPTICS-CONF-2020 is an initiative of Conference Series to recognize and provide incentives to the Young Researchers who has shown great potential at their respective field of research. We at Conference Series always encourage the young budding minds to start their career in the field of research and innovations. The core of our Young Research Forum – Young Scientist Awards is to motivate the scholars to present their research ideas in front of the global experts and enhance their knowledge at our international platform. We at OPTICS-CONF-2020 provide the best networking experience to the participant for their overall professional growth and to promote the collaborative research.

With members from around the world focused on Quantum Physics and Quantum Technology this is your best opportunity to reach the largest assemblage of participants from the universities, colleges, research centres, societies, institutions, labs, associations, communities and companies etc. We want to make a worldwide meet in which data between researchers from the different controls can be effectively traded. The explanation behind bringing the general population at the meetings together is to catalyse empowering trades and connections between experts in different fields, from physical science to engineering. It will make new interdisciplinary systems and permit members to trade know-how and data to accomplish speedier and better results.

The field of Quantum physics and Quantum technology have not only helped the development in different fields in science and technology but also contributed towards the improvement of the quality of human life. The core aim of Quantum conference is to provide an opportunity for the delegates to meet, interact and exchange innovative ideas in the various areas of Quantum physics and its technology. The joy of attending 20 brings with it improvement and incremental growth in your approach to do things, in the broader manner to see things in international diversity.

Past Conference Report:

The “Global Meet on Optoelectronics and Quantum Physics” hosted by conference series with the theme, “An insight into the Recent Research and cutting-edge Technologies in optoelectronics and quantum physics” was successfully executed during October 07-09, 2019 in Chicago, Illinois, USA. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Physics.

The conference commenced with the presence of worthy Keynote forum and among the notable ones, few are listed below.

“Bismuth-Based Optical Frequency Comb Source” Yutaka Fukuchi Tokyo University of Science, Japan

“Innovative technologies in fiber optics hydrogen sensor detection system for space applications” by Alex A Kazemi The Boeing Co, USA

Eligibility Criteria for Young Scientist Awards: OPTICS-CONF-2020:

The OPTICS-CONF-2020: Young Scientist Awards: is for all young Researchers, Research Scholars (Preferably PhD, Post
Doc, and Post Graduates & Graduates) who has involved themselves into the R&D sector. The candidates should have minimum 3+ years of research experience and published minimum 3 research articles in international journals. Part time researchers can be considered subject to recommended by the research guide or any director level designated person from the organization.

Applications are invited on first come first serve basis. Only 25 nominations will be accepted globally.

Judging Criteria:

Nominated candidates need to present their research or talk for 25-30 minutes in front of the panel members. Subject should be under the scope of the OPTICS-CONF-2020 conference. Selection will be on the basis of individual accomplishments, quality & standards of research, noble thought, research methodology, innovative ideas, style of presentation, significance of the contribution to the field, originality, clarity, and future extended scope of the research and probability of bringing the research in terms of products/services into public domain.

Nomination:

We invite online applications from desired candidates, self-nomination or nominated by organizations (both private & public sectors)/research guides. The student must be the first author & the student’s advisor should attach a statement that their contribution is primarily advisory.

Candidates applying for the OPTICS-CONF-2020: Young Researcher Award should send their resume, along with a letter of recommendation (from a research adviser/faculty/organization heads) to optoelectronics@asia-meetings.com along with the online application at the OPTICS-CONF-2020 Award page.

Presentation:

This award will be presented at Sydney, Australia during OPTICS-CONF-2020 conference.

About Hosting Organization: Conference Series:

Conference Series LLC LTD is the world’s leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

For any further queries/concern, can reach the OPTICS-CONF-2020 secretariat at the below contact details:
