

Global Presence of Your Research at 2nd World Cardiology Experts Meeting Scheduled During April 8-9, 2020 at Sydney, Australia

Suresh Vatsyayann

The Family Clinic, Gurugram, India, E-mail: freegp@gmail.com

International Conference on 2nd World Cardiology Experts Meeting on April 8-9, 2020, Sydney, Australia will bring together world-class professors, scientists and cardiologists to discuss Heart Surgery, Heart Devices, Cardiac Nursing, Cardiac Pharmacology, Electrocardiography, Cardiac catheterization, Coronary angiography, Cardiovascular surgery, Invasive cardiology, The coronary care unit, Cardiovascular drugs, Preventive cardiology, Echocardiography, Cardiac Imaging Techniques, Pacemakers and internal defibrillators, Nutrition, Diet & Exercise and Pediatric cardiology. World Cardiology Summit 2020 aims to provide an opportunity to share knowledge, expertise along with unparalleled networking opportunities between a large number of medical professionals like Directors, Heads, Deans, Professors, Scientists, Researchers, Cardiologists, Founders and Employees of the related companies, Associations, Organizations, Laboratory members and Young researchers working in the field of Cardiology & Heart treatment. This Cardiology conference mainly focuses on spreading the awareness about challenges in this field and how to prevent and manage the techniques of Cardiac Imaging, Cardiology and Cardiac nursing.

[2nd World cardiology Experts Meeting](#) provides a comprehensive introduction to diseases of the cardiovascular system, how they present, how they are diagnosed, how they are prevented, and how they are treated. Students learn to identify the integral links between anatomy, physiology, pathology, and basic sciences with clinical medicine and other essential aspects of patient care for ambulatory and hospitalized patients who have cardiovascular disorders. They are prevented, and how they are treated. Students learn to identify the integral links between anatomy, physiology, pathology, and basic sciences with clinical medicine and other essential aspects of patient care for ambulatory and hospitalized patients who have cardiovascular disorders.

The cardiovascular market research reports by iData cover Interventional Cardiology, Cardiac Surgery, Cardiac Rhythm Management and the Electrophysiology market. The fastest growing segments within interventional cardiology are expected to be driven by new technologies, such as CTO crossers, FFR guidewires and OCT catheters. The vascular access market will grow due to a combination of increasing patient population and the shift towards technologically advanced devices that will continue to gain market share at the expense of older, less expensive devices. iData's cardiovascular device market reports also include cardiac surgery, cardiac rhythm management, and other cardiovascular devices and procedures.

iData Research has an ever-expanding medical market intelligence library consisting of focused, in-depth, accurate, and exclusive research you will not find anywhere else. Our highly qualified team of industry analysts follows a structured and independent research methodology designed to provide the most valuable return on actionable market data in the world.

The full report suite on the European market for cardiac rhythm management, electrophysiology and cardiac ablation includes pacemakers, implantable cardioverter-defibrillators (ICDs), cardiac resynchronization therapy devices (CRTs), cardiac leads, electrophysiology (EP) lab systems, diagnostic EP catheters and cardiac ablation catheters.

While this report suite contains all Europe cardiac rhythm management device data, each of the markets are also available as stand-alone MedCore reports. This allows you to get access to only the [cardiac rhythm management](#) market research that you need. You can view all these included reports and segmentation here:

Cardiac Rhythm Management Market – MedView – Gives an easily accessible view of all cardiac rhythm management device markets and trends and aggregates the data together for a picture of the total Europe market.

Europe Market Report for Pacemakers – MedCore – In-depth analysis of the Pacemaker Market. Chapter includes details on single and dual-chamber device markets.

Europe Market Report for Implantable Cardioverter Defibrillators – MedCore – In-depth analysis of the ICD Market. Chapter includes details on single and dual-chamber ICDs and more.

Europe Market Report for Cardiac Resynchronization Therapy Devices – MedCore – In-depth analysis of the CRT Market. Chapter includes details on Initial Placement CRT devices and Replacement CRT devices.

Europe Market Report for Cardiac Ablation Catheters – MedCore – In-depth analysis of the Cardiac Ablation Catheter Market. Chapter includes details on RF Ablation Catheters and Cryoablation Catheters.

Other Information – Company Profiles and SWOT, Disease Overviews, & Related Press Releases from Top Competitor.

Buying all of these reports together in this suite package will provide you with substantial discounts from the separate prices. Request Pricing to Learn More.

Cardiac Rhythm Management Market Report Data Types Included:

Unit Sales, Average Selling Prices, Market Value & Growth Trends.

Forecasts until 2025 and Historical Data to 2015.

Market Drivers & Limiters for Each Cardiac Rhythm Management Device Segment.

Competitive Analysis with Market Shares for Each Segment.

Recent Mergers & Acquisitions.

Cardiac Rhythm Management Procedure Volumes.

Disease Overviews and Demographic Information.

Company Profiles, Product Portfolios and SWOT for Top Competitors.

Related Press Releases from Top Competitors.

Cardiac Rhythm Management Companies Analyzed:

Medtronic led the total market for cardiac rhythm management (CRM), electrophysiology (EP) and ablation devices, due to its dominance in the pacemaker, ICD and CRT segments. Medtronic has been able to retain its

position in the CRM market through brand recognition, strong customer Support and a large sales force.

Other major competitors in the market include Abbott and Boston Scientific. These companies also offer a wide range of [electrophysiology](#) (EP) and cardiac ablation products and sell them through large distribution networks.

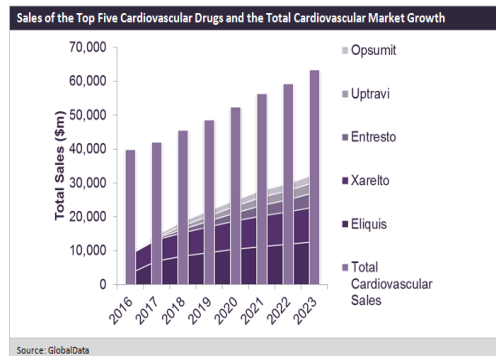

Target Audience:

- Directors, CEO's of Organizations
- Business Development Managers
- Chief Scientific Officers
- R&D Researchers from Pharma Industries
- Professors, Associate Professors, Assistant Professors
- PhD Scholars
- Patent Attorneys
- Investment Analysts
- Association, Association presidents and professionals
- Noble laureates in Health Care and Medicine
- Software development companies
- Research Institutes and members
- Supply Chain companies
- Manufacturing Companies
- CRO and DATA management Companies
- Training Institutes
- Business Entrepreneurs

Related Companies/Industries:

- Abbott
- AMEDTEC
- AtriCure
- Bexen Cardio
- Bionet
- Biosense Webster
- Biotronik
- Boston Scientific
- BTL
- Cardiac Science
- CardiAid
- CardioLine
- Carewell
- CathVision
- Defibtech
- ERT
- Farum
- Fukuda Denshi
- GE Healthcare
- General Meditech

- Imricor Medical Systems
- JJET
- Kalamed
- Lepu Medical
- Lumed
- MDE Diagnostics
- MEDICO S.p.A.
- Medicomp

Related Associations and Societies:

- The American Heart Association (AHA)
- Heart Failure Society of America (HFSA)
- American Society of Echocardiography (ASE)
- Alliance of Cardiovascular Professionals (ACVP)
- Society of Invasive Cardiovascular Professionals (SICP)
- American Society of Nuclear Cardiology (ASNC)
- International Academy of Cardiology (IAC)
- Society of Geriatric Cardiology
- American College of Cardiovascular Administrators (ACCA)
