

Hematology and Infectious Diseases 2020 Announcement

Ilham Youssry

Professor of Pediatrics and head of the Pediatrics Hematology & BMT unit, Cairo University Egypt, ilhamyousry@yahoo.com

With the prosperous completion of our 15th World Hematology & Immunology Congress which was held in Lisbon, Portugal. We are glad to bring it back with a much refreshed and newer version of the "16th Global Summit on Hematology and Infectious diseases" scheduled during March 02-03, 2020 at London, UK.

The past conference proceeded through various Scientific Sessions with highlighted Keynote presentations by:

- 1) Shlomo Dotan, Hadassah University Hospital, Jerusalem
- 2) Shuliang Jiao, Bascom Palmer Eye Institute of University. USA
- 3) Holhos Larisa Bianca, County Clinical Emergency Hospital of Oradea, Bihor county

We are contended to various delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums. As per the requests from our previous participants we are glad to introduce the 16th Global Summit on Hematology and Infectious Diseases.

Bringing the series back with World Infectious Diseases 2020.

The theme for World Infectious Diseases 2020 is: Contemporary breakthroughs in Hematology and Infectious diseases.

We hereby put forth World Infectious Diseases 2020 as an interdisciplinary program that meets the demand for education and development in the fields of Hematology and Infectious Diseases.

Our aim for this series is to administer an academic feast for all the Hematologists, Infectious Diseases experts, Researchers, Associate Professors, and Scholars from both scholastic and ophthalmic Institutes and optometry associations and related topics in order to promote development and education in the field of Hematology.

With many more additions to the previous sessions our conference highlight for World Infectious Diseases 2020 includes:

World Infectious Diseases 2020 enhances Hematologic education to improve Infectious Diseases Institutes like (Malaria, STDs are involved) Contribute to preservation and restoration of infection around the world. It is a very easy way to discuss the emerging Platform of Infection assigned with new devices.

The World Infectious Diseases 2020 deliberations focus on infectious Diseases Institutes like (NIE, Wilmer are involved) Contribute to preservation and restoration of Diseases around the world. It is a very easy way to discuss the emerging Platform of Diseases like Cancer assigned with new devices. Hematology and Infectious Diseases continues to be an attractive field of medicine with great opportunities and its sub-specialties and is designed to provide a platform for discussion and networking as well as to share new ideas, advancements and research related to the field.

This Academic event includes imperative Keynote forums, plenary presentations, poster presentations, workshops, exhibitions and more. By participating in forums, sharing research and collaborating, the research community will be much benefited.

Organized with the motive of accentuating the research with the help of international Hematologistlogists, Orthoptists, Pediatrician, Researchers, Associate Professors by bringing together all the related experts and professionals under a single summit to emphasize the developments in Hematology and Infectious Diseases.

We welcome you all to connect, contribute and collaborate with Hematologists and Researchers/Surgeons/Associate professors from around the globe
