

Infectious Diseases 2020 Awards

Ali Karami

Professor of Molecular Biology, Medical Biotechnology and Genetic Engineering, Baqiyatallah University of Medical Sciences, Iran, E-mail: alikarami1@yahoo.com

Infections and Infectious diseases can be transmitted from animals to people or from one person to another. They can be mild and self-resolve or develop into serious illnesses if left untreated lead to serious illness, long-term consequences or death.

Nominees are judged on past accomplishments, research excellence and outstanding academic achievements. Researchers throughout the world who have been credited with outstanding achievements can make a significant contribution to the advancement of their field, thereby having a positive influence on the society.

To provide a strong professional development opportunity for early career academicians-meeting experts awards in different categories are announced such as following

Expert Level

Which will be presented to the expert researchers who have done exceptional work in the field of [Europe Infectious Diseases](#). The award is considered the most distinguished award for who is passionate towards their work, willing to innovate and accept the aberrations happening in the research area with the introduction of recent trends.

Professional Level

Followed by Expert level which is termed as The Research Contribution Award for who should be hard working, diligent, focused and devoted to the specific field of interest.

Scholar Level

Next followed by Professional level which will be presented to upcoming researchers and scientists in their respective field (Infectious Diseases) who bring new technologies and innovations to their work according to the new trends in their field.

Women Scientist Award

To encourage Women scientists and researchers by providing a platform where they can present their work

and passion towards their research Women Scientist Award will be presented which is also termed as The Women of Science Award.
