

Infectious Diseases 2020 Conference Announcement

Ali Karami

Professor of Molecular Biology, Medical Biotechnology and Genetic Engineering, Baqiyatallah University of Medical Sciences, Iran, E-mail: alikarami1@yahoo.com

[Infectious Diseases](#) are caused by organisms such as bacteria, viruses, fungi or parasites. Infectious diseases may be of water borne, food borne, vector borne, air borne in human beings as well as in plants and animals. Infectious diseases basically emphasize on the pathogenesis of the bacteria and their therapeutic measures, coalesce of branches of Microbiology Especially Clinical and Diagnostic Microbiology which deals with the cure and prevention of the Infectious diseases. It represents an increasingly important cause of human morbidity and mortality throughout the world. Vaccine development has significant importance in terms of global health.

The [Euro Infectious Diseases 2020](#) is an event that aims to explore the ways to innovate in the field of infectious diseases, and to find new catalysts for better industrial development at Vienna, Austria on October 05-06, 2020. The conference will serve as a platform to bring together leading scientists, academicians with different specialties such as medical, pharma etc. International Euro Infectious Diseases Conference will discuss on the topics such as Infectious Diseases, Epidemiology of Infectious Diseases, Diagnosis of Infectious Diseases, Emerging and Re-Emerging Infectious Diseases and Infection Prevention, Control and Treatment.

[Vienna Euro Infectious Diseases Conference](#) is supported by the organizing committee and speakers network of renowned scientific and professional expert such as Liana Monica Dec, Public Health Institute, Romania, Ping-Hua Sun, Jinan University, China, Sachin H Jain, Hinduja Healthcare Surgical Hospital, India and Vedrana Radovanović, Fidelta Ltd., Croatia it provided a platform for collaboration among colleagues, vendors, and academia to reveal new innovations, solutions, ideas, and emerging technologies in Infectious Diseases at [Vienna Euro Infectious Diseases Meetings](#).

According to research and consulting firm bcc Research, the global market for [infectious disease treatments](#) totaled \$64.8 billion in 2017. The market should total \$99

billion by 2022, growing at a compound annual growth rate (CAGR) of 8.9% from 2017 to 2022.

The global IVD infectious diseases market was valued at USD 18.8 billion in 2018. It is likely to exhibit a CAGR of 6.7% from 2018 to 2026. Increasing external funding for research and development (R&D) activities and proactive government initiatives are among the primary growth stimulants for the market.

The [global infectious disease diagnostics market](#) is expected to reach USD 25.43 billion by 2027 from USD 15.57 billion in 2018, at a CAGR of 5.6%. The increasing global prevalence of infectious diseases, the shift in focus from centralized laboratories to decentralized point-of-care testing, and growth in funding for research on infectious disease diagnostics are some the factors driving the growth of this mark

[Global Euro Infectious Diseases Congresses](#) going to be held during January 2020 to December 2020 at various cities in Europe (London, Barcelona, Madrid, Valencia, Rome, Milan, Berlin, Frankfurt, Vienna, Zurich, Dublin, Edinburgh.... and Many More....!!!
