

International Online Conference on Immunology

Elizebth Marnon

Department of Infectious and Tropical Diseases, Rouen University Hospital, France, E-mail: elizebthmarnon@yahoo.com

Conferences series LLC Ltd warmly invites all the participants from all over the world to attend and takes immense pleasure in inviting the scientists, researchers, professors, delegates across the continents to its upcoming part of the prestigious **International Congress on Vaccines & Immunology [Webinar]** speak on a theme is approach to boost the immune system by escaping viral infections which is going to be held during **July 08-09, 2021**. On behalf of all the Advisory board members, we invite all the vaccine & Immunology researchers, industrialists, young scientists as well as student and corporate kings to join and to give a great success. This online event will give you the whole concentration on existing and most recent developments in every aspect of vaccine and antibiotic research. Immunology Summit 2021 is an opportunity to meet virtually to all the audience and grow their network and share their knowledge and expertise in the field of immunology and also to others to grow their network and learn the latest clinical information. Our target audience will be from worldwide and intend to share research results in the area of vaccinations, immunization, microbiology, antibiotics and its applications.

BENEFITS:

- International Speaker Certification
- Online publication of the abstract in the conference website
- Abstract publication in the conference proceeding with the unique DOI given
- Special Publication discount benefits as a conference attendee
- Group Registration discounts
- Outstanding Young Researcher Award
- International Networking
- Scientific Association, Collaboration and many more..!

Targeted Audience:

- Immunologists
- Immunology Researchers ,Students, Scientists
- Allergists
- Health Care & professionals
- Bioinformatician
- Pulmonologists
- Physicians
- Training Institutes
- Manufacturing Medical Devices Companies
- Nurse Practitioners and Physician Assistants
- Students working in this field
-

- Vaccination Programme Organizing Government and Non-government Organizations
- Medical Colleges
- Immunology Faculty
- Immune Therapist
- Immunology Associations and Societies

The program includes plenary talks and keynote speeches from internationally renowned scientists. Each of these speakers helped to shape the modern concepts of the Field of Immunology. Besides, there will be sessions for oral and poster presentations. Presentations in these sessions will provide an overview of the cutting-edge technologies being used to address difficult therapeutic and the theoretical issues in the Field of Immunology.

[Immunology](#) is unique in its approach of encouraging a dialogue between the basic and clinical scientists. We expect to have these dialogues both during the scientific sessions and networking time. We hope to make it submit particularly educational and inspiring for young scientists who will get an opportunity to interact with leading experts.
