

Invitation to Submit Articles to the Regular Upcoming Issue of Global Journal of Technology and Optimization

Erica Cohen*

Journal Managing Editor, Global Journal of Technology and Optimization, Brussels, Belgium

Announcement

Greetings from the Editorial team!

We welcome you to the Global Journal of Technology and Optimization, a publication devoted to the distribution of high-caliber, legitimate and cutting-edge research going on in the field of Technology and Optimization. Global Journal of Technology and Optimization is an open-access journal that follows the rapid peer-review process and publishes research articles, review articles, short communication, short commentaries, letter to the editor, case reports, etc. describing frontier research areas in the technology field. Internationally renowned scientists describe their own research in the wider context of the field. These journals publish recent developments in information technology, electrical, electronics, data science, mathematics, statistics, mechanical optimization, robotics, etc.

Global Journal of Technology and Optimization, is Indexed in Directory of Research Journals, Index Copernicus, Google Scholar, Sherpa Romeo, Ulrich's Periodicals Directory, RefSeek, EBSCO A-Z and Publons, and several other search engines.

The main aim of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in different areas of technology and optimization.

- The topics covered include but not limited to: Bioinformatics,

Cavitation, Computation theory, Computational Biology, Conditioning Monitoring, Controllers, Global optimization, Image Recognition, Information Visualization, Internet computing Machines, Mathematical optimization, Mechatronics and Robotics, Modeling and Simulation Network Parallel Processing, Power System, Pressure Signal Processing, Simulator Soft Computing and Computational Intelligent, Software design, Statistics, Surface Technology, Temperature, Ubiquitous Computing, Wireless Sensor, etc

- For quality in the peer-review process the Journal is using the Editorial Management System. It is an online manuscript submission, Review, and Tracking system. The Editorial Board Members of the Journal performs the review processing. Authors may submit manuscripts and track their progress through the system
- The articles will be managed electronically, examined by a scientific committee and anonymous evaluators, and published every month in HTML and PDF formats
- We have selective previous scientists who have made their contributions to the scientific community
