I am delighted at becoming the Editor of Journal of Vasculitis and consider it an honor to take on the responsibility for a journal that is not only highly regarded in my research field but has also been an important part of my professional career in science. Journal of Vasculitis is continuing the efforts to enhance the scientific quality and flourishing reputation, which has been evident in the recent times.

On behalf of the Board of the Journal and my co-editors I am proud to introduce you to the Volume 5. The journal started publishing in 2015 and has since then published several high quality papers and reviews.

I am extremely thankful to the Board and our readers and contributors (authors and reviewers) for making this journal a great success. Journal of Vasculitis was established with a vision of supporting and promoting research in vasculitis from across the world. We are looking to expand our panel of reviewers and editorial board from across the various sub specialties in the field.

I would welcome your contributions and suggestions to take Journal of Vasculitis to further heights. In the year 2020, Journal of Vasculitis brings articles in all areas related to ANCA vasculitis, Leukocytoclastic vasculitis, Urticarial vasculitis, inflammatory vasculitis, autoimmune vasculitis, Vasculitis treatment, Systemic vasculitis, Pulmonary vasculitis, Vasculitis symptoms and many other topics of vascular system.

As a member of Publisher International Linking Association, PILA, Hilaris SRL's Journal of Vasculitis follows the Creative Commons Attribution License and Scholars Open Access publishing policies. Journal of Vasculitis provides a really exciting opportunity to consider the truly interdisciplinary nature of science at a time of great change across the wider scope.

The objective of Journal of Vasculitis is to publish up-to-date, high-quality and original research papers alongside relevant and insightful reviews. As such, the journal aspires to be vibrant, engaging and accessible, and at the same time integrative and challenging. Journal of Vasculitis focuses vasculitis, leukocytoclastic vasculitis, urticarial vasculitis, vasculitis symptoms, ANCA vasculitis, inflammatory vasculitis, autoimmune vasculitis, hypersensitivity vasculitis, vasculitis treatment, cutaneous vasculitis, cerebral vasculitis, necrotizing vasculitis, rheumatoid vasculitis, cryoglobulinemic vasculitis, systemic vasculitis, retinal vasculitis, small vessel vasculitis, cerebral vasculitis, lymphocytic vasculitis, central nervous system vasculitis, ANCA associated vasculitis, pulmonary vasculitis, allergic vasculitis, golfers vasculitis, nodular vasculitis.

Journal of Vasculitis accepts all types of articles including research, review, case reports, commentaries, hypotheses, meeting reports, editorials and short reports. Journal of Vasculitis is using Editorial Tracking System for quality in review process. It is an online manuscript submission, review and tracking system used by most of the best open access journals. Review processing is performed by the editorial board members of Journal or outside experts; at least two independent reviewers approval followed by editor's approval is required for acceptance of any citable manuscript.

Needless to say, any papers that you wish to submit, either individually or collaboratively, are much appreciated and will make a substantial contribution to the early development and success of the journal. Best wishes and thank you in advance for your contribution to the Journal of Vasculitis.
