Our industry experts anticipate that within the gastrointestinal diseases market, the GIT Anti-inflammatory drug will grow at the fastest CAGR ranging from 1% to .5%, during the forecast period. Based on the geographic regions, our experts anticipate that Europe will be the fastest-growing segment during the forecast period. The Europe region will grow at a CAGR ranging from 1% to 0.3% by 2022.

EOGRAPHIC COVERAGE AND ANALYSIS

This granular market research report covers the following geographic regions in great detail:

KEY PREMIUM INDUSTRY INSIGHTS

The gastrointestinal diseases market is driven by the continuous rise in the incidences of the gastrointestinal diseases worldwide.

According to the Gastroenterological Society of Australia, the gastrointestinal diseases such as Cohn's disease, ulcerative colitis, and inflammatory bowel diseases are increasing in Australia and other countries at a constant rate. Thus, increasing the demand for the gastrointestinal diseases therapeutics, leading to the market growth to great extent.

Furthermore, the rising interest of the companies in increasing the investments in the gastrointestinal diseases market will drive the market growth to some extent.

Additionally, it is also noticed that the demand or sale of the gastrointestinal drugs is increased in the developing and developed regions, which will act as a potential driver for the market growth.

However, development of new alternative therapies to treat the gastrointestinal diseases, coupled with the regulatory restraints to develop the gastrointestinal drugs will hamper the overall market growth.

- Gastroenterological Society of Australia (GESA)
- Australian and New Zealand Gastric and Oesophageal Surgery Association
- Philippine Society of Gastroenterology (PSG) British Society of Gastroenterology
- European Association for Gastroenterology, Endoscopy & Nutrition
- Auckland Gastroenterology Associates
- Gastroenterological Scientific Society of Russia

Related Societies:-

- Asian Pacific Association of Gastroenterology (APAGE)
