

Market Analysis Report for COPD and Lungs Conference 2020 scheduled at Kyoto, Japan during 25-26 May, 2020

Ms. Suchi

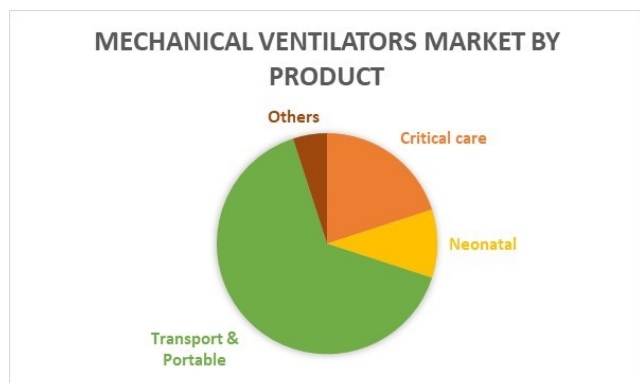

Chair and Vice President, Asia Global Goodwill Ambassadors, Singapore, E-mail: suchi11sg@gmail.com

The International COPD market is considered being worth \$9.9 billion presently, and is expected to reach a value of \$14.1 billion by 2025. The drugs driving this growth include once-daily LABA/LAMA fixed-dose combinations such as QVA-149, umeclidinium bromide/vilanterol and olodaterol/tiotropium. The opportunity in the U.S. and China asthma and COPD drugs market is slated to rise from a valuation of US\$13.0 billion in 2015 to be worth US\$18.7 billion by 2024. If these values hold true, the market is likely to expand at a modest CAGR of 4.1% therein. North Hemisphere countries trends the international market for COPD drugs. And it was followed by the European countries market capitalization. The Asia Pacific region is forecast to be the rapid regional for COPD & Asthma market owing to the fastest frequency of asthma & other respiratory diseases in industrial region.

Annis continues “These therapies are anticipated to be reserved as an add-on therapy for patients with high levels of blood eosinophilia who are poorly controlled with high-dose ICS therapy and at high risk for exacerbations. Thus, Global Data expects Nucala and benralizumab will garner US sales of approximately \$1.2 billion and \$817.9 million, respectively, in 2025.”

Every year the usage of Respiratory devices is on high rise and the market is growing exponentially to meet the demand.

The global mechanical ventilator market size was valued at USD 3.7 billion in 2016 and is expected to grow at a CAGR of 6.5% during the forecast period. The evolution of patient-friendly, cost-effective and portable devices further encourages their usage.

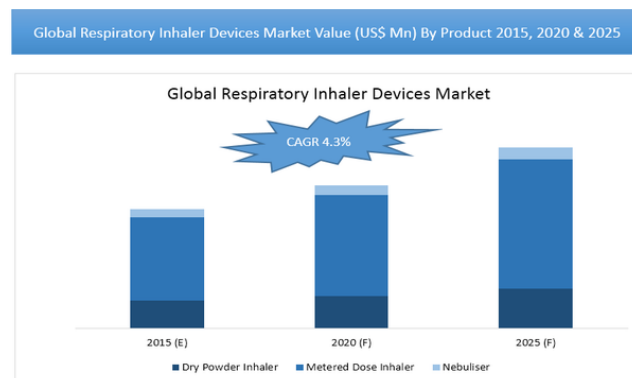

Oxygen Therapy Market Size to Reach USD 18.2 Billion By 2024

The global respiratory inhaler devices market is estimated to expand at a CAGR of 4.3% during the forecast period. The global respiratory inhaler devices market value is expected to increase to US\$ 43,214.0 MN by 2025 end.

The global respiratory inhalers market was valued at US\$ 27,424.4 million in 2016 and is expected to witness a robust CAGR of 5.7% over the forecast period (2017-2025).
