

Modern Evolution in the field of Heart and Emergency Medicine - Asian Global Summit on Heart and Emergency Medicine

Dr. Suresh Vatsyayann

The Family Clinic, Gurugram, India, E-mail: freegp@gmail.com

The “[4th World Heart Congress](#)” hosted by conference series with the theme, “Promoting Excellence in Cardiology and Healthcare” was successfully executed during April 29 - May 01, 2019 in Kyoto, Japan. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received commendable and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of [Cardiology](#). We extend our grateful thanks to all the momentous speakers, conference attendees who contributed towards the successful run of the conference. This inspires us to continue organizing events and conferences for further research in the Field of cardiology.

The conference commenced with the Honourable presence of the Keynote forum.

- “SGLT-2 inhibitors and the heart: Mechanisms of protection” by Yochai Birnbaum, Baylor College of Medicine, USA
- “Epigenome regulation of myocardial metabolism in heart failure” By Zheng Sun, Baylor College of Medicine, USA
- Conference series llc Ltd. is organizing “[Asian Global Summit on Heart and Emergency Medicine](#)” which is going to be held on September 21-22, 2020 at **Kyoto, Japan**. The Theme of the conference is “*Modern Evolution in the field of Heart and Emergency Medicine*”. We are privileged to welcome the Scientists and Researchers, Directors, Cardiology Associations and Organizations, Students. The

conference is going to cover the entire field related to [Cardiology](#), emergency medicine and Heart, latest research and findings. Our Conference will provide a platform where research scholars and students will be able to gain knowledge about new, innovative research and findings from the eminent Scientist, Researchers and Professors. This international event is an effort to find an alternative for invasive imaging technique against heart diseases and heart failure conditions in adults & children focuses on spreading the awareness about challenges in this fields and how to prevent and manage the techniques of Cardiac Imaging, Cardiology and Cardiac nursing.

The conference highlights of 2020 are as follows: [Clinical Cardiology](#), [Emergency Medical Service](#), [Cardiac Emergencies](#), [Emergency and acute care Medicine](#), [Pediatric Emergencies](#), [Emergency Nursing](#), [Pediatric Cardiology](#), [Cardiovascular Surgery](#), [Hypertension and Health care](#), [Electrocardiography](#), [Cardiac Imaging Techniques](#), [Cardiac Pharmacology](#), [Emergency Imaging](#), [Gynecologic/Obstetric Emergencies](#), [Endocrine/Neurological Emergencies](#), [Cardiac Nursing](#), [Nutrition, Diet & Exercise](#), [Cardiac and Cardiovascular Research](#), [Heart Devices and Diabetes, Obesity & Stroke](#)

Expecting your valuable participation and contributions towards our Conferences. Your contributions would pave way to the upcoming researchers or/and the novel concepts.
