

## New advancement and technology in chemical engineering

**Orawan Suwantong**

*Assistant Professor, Mae Fah Luang University, Thailand, E-mail: orawan.suw@mfu.ac.th*

After gaining a very favourable outcome out of the past conference in the Chemical Engineering Conference series, CPD accredited-**International Conference on Chemical Engineering & Technology – Chemical Engineering 2020**; Conference series takes all the pride in announcing the Upcoming Conference in the successful series of Chemical Engineering Conferences.

**Chemical Engineering 2020**-The two-day gathering of world-renowned researchers, industrialist, experts and practitioners of chemical engineering, Scientists, Chemical engineering Associations and Societies is scheduled on **March 02-03, 2020 in London, UK**.

The International Conference on Chemical Engineering & Technology-Chemical Engineering 2020 is going to happen on the 02<sup>nd</sup> and 03<sup>rd</sup> March 2020 in London, UK. Chemical Engineering 2020 desires at integrating all the renowned Chemical Engineers, Researchers and Doctors, Industries, Fellowship holders, Residents, Pharmaceutical industries in the field of Chemical Engineering. The objective of this conference is to gather like-minded coteries to facilitate the flow of ideas, thoughts, suggestions and motivations

This Chemical Conference runs on the theme ‘**New advancement and technology in chemical engineering**’, which concedes that Chemical Engineering 2020 will act as a platform for exploring the novelties in the field of Engineering.

Chemical Engineering 2020 will serve a great opportunity for the delegates of universities and Institutions as it allows people to interrelate with world-class chemical scientists, chemical Engineers and Businesspersons. Chemical Engineering 2020 will not simply be a stage estimation in a gigantic event of people, yet additionally, it’s an attempt to spread research advances in the ever evolving-field of Chemical Engineering.

The scientific event focuses on this chemical summit on the research which is currently being undertaken in the field of Chemical engineering work in manufacturing, pharmaceuticals, healthcare, design and construction, pulp and paper, **petrochemicals**, food processing, **specialty chemicals**, polymers, business services, biotechnology, and environmental health and safety industries, among others.

Chemical Engineering 2020 Conference embraces Keynote speeches, Oral, Poster and Video Presentations. The fostered participants can confirm their participation by registering in Chemical Engineering 2020. All the accepted abstracts will be published in the supporting journals like Journal of Chromatography & Separation Techniques; Journal of Environmental Analytical Chemistry, **Biopolymer Research**.

This conference will help the attendees in building a strong professional network by facilitating a fresh perspective of ideas, knowledge in recent advancements, one-on-one engagements and streamlining of techniques. Chemical Engineering Conference is organized under the belief that one-on-one interactions and discussions open door to innovations and inventions. We are proud facilitators of such an opportunity.

Chemical Engineering 2020 welcomes: Chemical Engineers, Chemists, Chemical Scientists, Chemical engineering Students, Chemical Industries, Chemical engineering Associations and Societies, Biochemical engineers, Polymer engineers, Chemical Companies, Petroleum Engineers, The people who are specialized with geologists, geophysicists, reservoir engineers, production engineers, Chemical Engineers, R&D Companies, PhD Scholars, Societies, Advertising Companies, **Researchers**, Scientists, Business delegates and Societies, Chemical Engineers training institutes, Pharmaceutical Industries, Product development and marketing professionals, Healthcare Industries.

We soulfully welcome you to London and hoping that Chemical Engineering 2020 will inspire you and will result in new collaborations and friendships!

Reach us for any queries!

Kathleen Adams

Program Manager | Chemical Engineering 2020
