

Past conference report – 5th International Anesthesia and Pain Medicine conference which was held during August 10-11, 2020

Anesthesia is defined as a temporary state of unconsciousness, lack of pain, loss of memory, and muscle relaxation. Most associate the word with being medically placed in an unconscious state for surgery. The recent advancements in Anesthesia and Pain Medicine were enlightened and discussed in the [5th International Anesthesia and Pain Medicine Conference](#) which was held during August 10-11, 2020 with the theme of “Anesthesia: Delve into the proficiency of surgery” received a spectacular response. With the active participation and support of the Organizing Committee Members, Editorial Board Members, and impressive presentations of all eminent scientists, talented researchers and young student community made this conference one of the most successful and productive events in ME Conferences.

ME Conferences offers its heartfelt appreciation to Societies and Organizations and is also obliged to the Organizing Committee Members, adepts of field, various outside experts, company representatives, and other eminent personalities who interlaced with Conference series in supporting and making the conference never before one.

The highlights of the meeting were the enlightening keynote lectures from:

- Dr. Huang Wei Ling, Medical Acupuncture and Pain Management Clinic, Brazil
- Dr. Khaled Sewify, Consultant Intensivist & Head of Adult ICU Department, Saudi Arabia

Anesthesia Meet 2020 would also like to thank the following speakers for their splendid presentations on their research.

- Ahmed Yahya Ayoub, Abu Dhabi Health Services Company - SEHA, United Arab Emirates
- Dr. Darshit Prafulkumar Chauhan, Medical College Vadodara, India
- Dr. Stuti Bhamri, Medical College Vadodara, India
- Akel Azzi, Holy Spirit University of Kaslik (USEK), Lebanon
