Conferenceseries.LLC takes a great pride in announcing the commencement of 3rd International Conference on Parkinson's disease and Movement Disorders-2017 during September 25-26, 2017 at Chicago, USA. Parkinsons 2017 has received a huge response from all across the globe.

The main aim and therefore the categorical intent of promoting the developments of recent perceptions and ideas for exploring the high level of data reached by scientific community on Parkinsons and Disorders. The conference was hosted by Conferenceseries.LLC was marked with the attending of young and sensible researchers, speakers, business delegates and proficient student communities.

The conference was organized around the theme "Research Strategies, propelled advancements and developments in Parkinson's disease". The event implanted a firm relation of upcoming strategies in the field of Parkinson's disease with the scientific community. The conceptual and applicable knowledge shared, will also foster organizational collaborations to nurture scientific accelerations.

This conference brought along Leading World Parkinsons physicians, Neurosurgeons, Neuroradiologists, Clinicians, Professors, Care Specialists, Students and alternative professionals within which several problems in Parkinsons field were mentioned exhaustive to supply up-to-date info to the planet. On the opposite hand, the meeting provided a chance for associate degree open and animated sharing of ideas and experiences.

The conference witnessed an amalgamation of peerless speakers, who enlightened the crowd with their enviable research knowledge and on various alluring topics related to the field of Parkinson's disease.

Supporting Journals:

- Journal of Anesthesiology & Pain Medicine
- Journal of Pain & Relief
- Journal of anesthesiology and pain research
